## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## NOTE

In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

## NOTA

On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et d'ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.

## COMMENTARY

### First Estimates(1) – January 1977 (Seasonally Adjusted)

The first estimates of the Canada industrial composite(2) index of employment (1961=100) showed a 0.1% increase from December to January. Industry divisions not participating in the gain were forestry, manufacturing, construction and service. Except for Quebec and the Atlantic Region, all regions registered gains.

Average weekly earnings declined 1.2% at the national industrial composite level in January. Forestry and mining (including milling) were the only industry divisions recording increases and British Columbia the only region posting gains.

### Preliminary Data – December 1976

#### Employment

Seasonally adjusted, preliminary data for December 1976 advanced 0.1% in the Canadian industrial composite index of employment. Trade, manufacturing, and forestry were the only industry divisions registering losses.

#### Earnings and Hours

Seasonally adjusted, average weekly earnings rose 2.0% at the national industrial composite level. With the exception of forestry and transportation, communication and other utilities, all industry divisions recorded increases. All regions contributed to the overall advance.

Unadjusted, average weekly earnings declined 1.0% to \$234.26 at the Canadian industrial composite level in December. Average hourly earnings advanced by fourteen cents in mining (including milling) to \$7.86, by seven cents in manufacturing to \$6.05 and fell by 23 cents in construction to \$8.94. Average weekly hours increased in mining (including milling), in manufacturing and in construction.

- (1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.
- (2) Industrial Composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year.

## OBSERVATIONS

### Premières estimations(1) – Janvier 1977 (Chiffres désaisonnalisés)

Les premières estimations de l'emploi pour l'ensemble des industries(2) du Canada (1961=100) indiquent une augmentation de 0.1%; les divisions de l'activité économique qui n'ont pas participé à ce gain furent le forestage, les manufactures, la construction et les services. Toutes les régions ont connu des augmentations à l'exception de Québec et de la région de l'Atlantique.

En janvier, les gains hebdomadaires moyens au niveau de l'ensemble des activités économiques du Canada ont régressé de 1.2%. Le forestage et les mines (y compris le broyage) furent les seules divisions de l'activité économique à enregistrer des gains, et la Colombie-Britannique fut la seule région à connaître des augmentations.

### Données provisoires – Décembre 1976

#### Emploi

Après désaisonnalisation, les données provisoires pour décembre 1976 indiquent une augmentation de 0.1% par rapport à novembre au niveau de l'emploi dans l'ensemble des industries du Canada. Parmi les divisions de l'activité économique, le commerce, les manufactures et le forestage furent les seuls à accuser des baisses.

#### Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, ont progressé de 2.0% au niveau de l'ensemble des industries du Canada. Exception faite du forestage et des transports, communications et autres services publics toutes les divisions de l'activité économique ont connu des hausses. Toutes les régions ont contribué à cette progression.

Les gains hebdomadaires moyens, non désaisonnalisés, ont enregistré une baisse de 1.0% pour atteindre \$234.26 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens se sont accrus de quatorze cents (\$7.86) dans les mines (y compris le broyage), de sept cents (\$6.05) dans les manufactures et ont fléchi de 23 cents (\$8.94) dans la construction. Le nombre moyen d'heures hebdomadaires travaillées a baissé dans les mines (y compris le broyage), les manufactures et dans la construction.

- (1) Voir la partie intitulée Présentation statistique sous la rubrique Concepts et méthodes, à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense. Toutes les statistiques sont fondées sur les déclarations envoyées par les employeurs comptant au moins 20 salariés au cours d'un mois quelconque de l'année.

First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly earnings relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly earnings for any month is therefore adjusted in the above table by the Consumer Price Index for the following month as more representative of the period in which earnings are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. This table relates to average weekly earnings of all employees. - Nota: 1. Les rémunérations hebdomadaires courantes on trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des rémunérations hebdomadaires courantes pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les rémunérations sont dépensées. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au Catalogue. 3. Ce tableau a trait à la rémunération hebdomadaire moyenne de tous les salariés.

TABLE 8. Index Numbers (1961=100) of Average Hourly Earnings in Selected Industries, for Canada 1961-1975

TABLEAU 8. Indices (1961=100) de la rémunération horaire moyenne, certaines industries, Canada, 1961-1975

# **HISTORICAL DATA ON EMPLOYMENT, EARNINGS AND HOURS(1)** (based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

Employment indexes (1961 = 100).

Average weekly earnings (formerly titled average weekly wages and salaries).

Average weekly hours and average hourly earnings of hourly-rated wage-earners.

Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).

Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

## **1957-1960**

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

## **1961-1970**

*Employment Indexes*, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. *Employment, Earnings and Hours, Catalogue 72-002, October 1971*.

*Employment Indexes*, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

*Average Weekly Earnings*, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Quebec: Transportation, communication and other utilities; Transportation.

Ontario: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

*Average Weekly Earnings*, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

*Average Weekly Hours, Average Hourly Earnings, Average Wages of Hourly-rated Wage-earners* 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

# **DONNÉES CHRONOLOGIQUES SUR L'EMPLOI, LES GAINS ET LA DURÉE DU TRAVAIL(1)** (fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).

2. Gains hebdomadaires moyens.

3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).

4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).

5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

## **A. 1957-1960**

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967* Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

## **B. 1961-1970**

*Indices de l'emploi*, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir *Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971*.

*Indices de l'emploi*, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

*Gains hebdomadaires moyens*, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

*Gains hebdomadaires moyens*, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

*Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens* des ouvriers (heures déclarées), 1961-1967 for:

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.*

All other available monthly and annual data for 1961-1964 are published in:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.*

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

### C. 1971-1973

*Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.*

*Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.*

*Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.*

All other series are published in the monthly issues of *Catalogue 72-002 for 1971, 1972 and 1973.*

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n<sup>o</sup> 72-002 au catalogue, juin 1972.

*Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n<sup>o</sup> 72-002 au catalogue décembre 1971.*

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n<sup>o</sup> 72-504 au catalogue.*

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n<sup>os</sup> 72-201 et 72-202 au catalogue 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n<sup>os</sup> 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n<sup>os</sup> 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n<sup>os</sup> 72-201 et 72-202 au catalogue, 1968-1970.

### C. 1971-1973

*Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries Voir le n<sup>o</sup> 72-002 au catalogue, juillet 1974.*

*Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communications et autres services publics et l'ensemble des industries. Voir le n<sup>o</sup> 72-002 au catalogue septembre 1974.*

*Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires—moyennes et rémunération horaire moyenne des ouvriers (heures—déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n<sup>o</sup> 72-002 au catalogue, septembre 1974.*

Toutes les autres séries sont publiées dans les bulletins mensuels du n<sup>o</sup> 72-002 au catalogue pour les années 1971, 1972 et 1973.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

## CONCEPTS AND METHODS

Each month the Monthly Employment, Payrolls and Labour Section of the Labour Division, through a mail survey, collects information on employment, earnings and hours which are tabulated in the data in this report. Data which, prior to March 1971, were published separately in "Employment and Average Weekly Wages and Salaries" (Catalogue 72-002) and in "Man-Hours and Hourly Earnings" (Catalogue 72-003) have been combined in this report. The following notes explain the concepts and methods used in the survey.

### Reporting Unit

The reporting unit is usually the establishment, that is, the smallest industrial unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including information on inputs and outputs needed to calculate "value added" or "mark-up" or "gross profit" as well as data on employment and earnings. For purposes of detailed geographic statistics, the Section requests that the reporting unit be a sub-establishment unit although not capable of reporting all basic statistics, can report employment and payroll data for that particular location.

Generally, the survey covers larger companies only, that is, those having 20 or more employees in any month of the year. However, all the establishments of a multi-establishment company are included if the company had 20 or more employees in total in any month of the year even though any single establishment may have had fewer employees.

### Pay Period

Conceptually, the figures refer to the last seven days in the month. In practice, few establishments keep payroll records for precisely this period and establishments are therefore asked to report for their last pay period or pay periods in each month.

When the reported pay period is longer than one week, the data are reduced to one week's proportion of the totals. The number of the fractions used in calculating these weekly equivalents is 5, 6 or 7, depending on the number of working days per week which the establishment operated in the pay period. The number of the fractions are the number of working days in the pay periods. For employees paid at annual or monthly rates, earnings are not affected by the number of working days in the pay period. Fixed proportions are used to reduce the earnings to a weekly basis without regard to the length of the calendar month.

When a holiday, layoff or industrial dispute occurs in an establishment that reports a pay period that is different from the last seven days of the month, an adjustment is made to the data, if the layoff or dispute affects the two periods differently, so that the data accurately reflects the actual situation during the reference period.

All industries are covered by the survey, with the exceptions of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private household and public administration and defence. Because of the limitation of the survey to larger firms, there is somewhat uneven coverage of employment by industry as well as by province and urban area. The percentage of total employment covered depends on the proportion

## CONCEPTS ET MÉTHODES

Chaque mois, la Section des Statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail de la Division du travail recueille, par voie d'enquête postale, des données sur l'emploi, les gains et les heures de travail, données qui sont ensuite publiées ici sous forme de tableaux. Les données qui, avant mars 1971, étaient publiées séparément dans "Employment and Average Weekly Wages and Salaries" (n° 72-002 au catalogue) et dans "Man-Hours and Hourly Earnings" (n° 72-003 au catalogue) sont regroupées ici. Les notes qui suivent expliquent les concepts et la méthodologie de l'enquête.

### Unité de déclaration

L'unité de déclaration est ordinairement l'établissement, c'est-à-dire la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques, y compris les données sur les entrées et les sorties qui sont nécessaires pour calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut" ainsi que des données sur l'emploi et les rémunérations. Pour obtenir des statistiques géographiques détaillées, la Section demande souvent que l'unité de déclaration se situe à un niveau qui est en deça de celui de l'établissement, mais qui permet quand même d'obtenir des données sur l'emploi et les rémunérations à ce niveau, même si, par définition, ce niveau ne peut fournir toutes les statistiques de base.

En règle générale, l'enquête vise seulement les grandes entreprises, c'est-à-dire les entreprises employant 20 salariés ou plus au cours de n'importe quel mois de l'année. Toutefois, tous les établissements d'une entreprise à établissements multiples sont pris en compte si l'entreprise emploie 20 salariés ou plus, au total, au cours de n'importe quel mois de l'année, même si un de ces établissements peut n'avoir eu que quelques salariés.

### Période de référence

En théorie, l'enquête vise les chiffres des sept derniers jours des mois de référence. Vu qu'en pratique peu d'établissements tiennent des registres de paye pour cette période précise, on permet aux établissements de faire porter leurs chiffres sur la (ou les) dernière(s) période(s) de paye de chaque mois.

Si la période de paye visée dépasse une semaine, les chiffres sont réduits en conséquence. Les numérateurs des fractions utilisées pour calculer l'équivalent hebdomadaire sont 5, 6 ou 7, suivant le nombre de jours ouvrables par semaine où l'établissement a été en exploitation pendant la période de paye. Les dénominateurs des fractions sont le nombre de jours ouvrables des diverses périodes de paye. Dans le cas du personnel qui est rémunéré sur une base annuelle ou mensuelle et dont les gains ne sont pas touchés par le nombre de jours ouvrables au cours du mois, on utilise des proportions fixes pour ramener les gains sur une base hebdomadaire, sans tenir compte de la longueur du mois civil.

En cas de jour férié, de congédiement ou de conflit du travail dans un établissement dont la période de paye ne correspond pas aux sept derniers jours du mois, les données sont rectifiées lorsque l'effet du jour férié, du congédiement ou du conflit n'est pas le même sur les deux périodes, de manière que les données soient le reflet fidèle de la situation pendant la période de référence.

### Champ de l'enquête

Toutes les branches d'activité économique sont prises en compte dans l'enquête, à l'exception de l'agriculture, de la pêche et du piégeage, de l'éducation et des services connexes, des services d'hygiène et de bien-être, des organismes religieux, des ménages et de l'administration publique et de la défense. Parce que l'enquête se limite aux grandes entreprises, le champ d'observation de l'emploi par branche d'activité, par province et par région urbaine manque quelque peu d'uniformité. Le

tion of larger to smaller establishments. This proportion varies considerably among industries. The following table shows annual employment as reported in the survey as a percentage of the estimated total employment, the latter being estimated by adding together data from the employment and payrolls survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of total employment are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

pourcentage de l'emploi total qui est observé dépend du rapport des grands établissements aux petits établissements. Cette proportion varie considérablement d'une branche à l'autre. Le tableau suivant indique le chiffre annuel de l'emploi, tel qu'il ressort de l'enquête, en pourcentage du chiffre estimatif de l'emploi total, ce dernier étant la somme des résultats de l'enquête sur l'emploi et la rémunération et des résultats d'une enquête par échantillon auprès des petites entreprises ainsi que d'autres enquêtes supplémentaires. Des estimations du nombre total d'employés sont publiées sous le titre "Estimations du nombre d'employés par province et par industrie" (n° 72-008 au catalogue).

**Larger-Firm Survey Employment as a Percentage of Total Estimated Employment, by Industry Division, for Canada and Provinces, 1972 Annual Averages(1)**

**Emploi des grandes entreprises en tant que pourcentage de l'estimation de l'emploi total par branche d'activité pour le Canada et les provinces, moyennes annuelles de 1972(1)**

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes recreational, business, personal and miscellaneous services only; data has not been published previously. - Comprend seulement les services récréatifs, commerciaux, personnels et divers; ces données n'ont pas été publiées auparavant.
- (3) These percentages are small because non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont petits parce que les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services and public administration and defence; data has not been published previously. - Ne comprend pas les services non commerciaux et l'administration publique et de la défense; ces données n'ont pas été publiées auparavant.
- (5) These percentages are smaller because both non-commercial services and public administration and defence are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont plus petits parce que les services non commerciaux de même que l'administration publique et la défense nationale sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (6) Data for forestry and construction by province are not available for periods more recent than 1970. Les données pour le forestage et la construction ne sont pas disponibles par province après l'année 1970.

#### Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas. The definitions used for other urban areas are based on a labour market concept; the areas usually include the surrounding territory as well as the urban centre. A list showing the territory included in each tabulated urban area is available from the Monthly Employment,

#### Classification géographique

Les unités de déclaration sont affectées à une province, à un comté (selon la définition établie par le recensement de la population) et, s'il y a lieu, à une région urbaine. Les données de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick sont agrégées dans certains tableaux présentant des statistiques pour la région de l'Atlantique. De la même manière, les données du Manitoba, de la Saskatchewan et de l'Alberta sont additionnées pour former le total de la région des Prairies. On a retenu la définition de "région métropolitaine" établie pour le recensement de la population dans le cas des dix-neuf régions urbaines. Les définitions employées pour les autres régions urbaines sont fondées sur le concept du marché du travail; les régions englobent ordinairement le territoire avoisinant avec le centre urbain. On peut obtenir

and Labour Income Section. The reporting units not located in a consolidated urban area are included in county, provincial and national totals.

## Industrial Classification

All establishments are assigned to an industrial class on the basis of their principal activity. If an establishment is engaged in a number of different industrial activities, its principal activity is determined by the largest net value added by these activities, or where not possible, by the gross revenue obtained from the different activities. When an establishment has very mixed activities, it is not arbitrarily shifted from industry to industry each time its principal activity changes.

Statistics from the survey are based on the 1960 Standard Industrial Classification. A description of the various industries and groups of industries may be found in the "Standard Industrial Classification Manual", Catalogue 12-501 (1960). The "S.I.C. code" numbers in the main tables refer to this manual. The tables contain a few groupings not found in the Standard Industrial Classification. These include:

**Industrial composite (031-899)** - The sum of the industries included in the survey. (see Coverage)

**Durable goods manufacturing (durable)** - The sum of wood products (S.I.C. 250-259), furniture and fixtures (S.I.C. 260-269), primary metal industries (S.I.C. 290-298), metal fabricating industries (S.I.C. 300-309), machinery (except electrical) (S.I.C. 310-318), transportation equipment (S.I.C. 320-329), electrical products (S.I.C. 330-339), and non-metallic mineral products (S.I.C. 340-359).

**Non-durable goods manufacturing (non-dur)** - The sum of food and beverages (S.I.C. 100-147), tobacco processing and products (S.I.C. 150-153), rubber products (S.I.C. 160-169), leather products (S.I.C. 170-179), textile products (S.I.C. 180-229), knitting mills (S.I.C. 230-239), clothing (S.I.C. 240-249), paper and allied industries (S.I.C. 270-274), printing, publishing and allied industries (S.I.C. 280-289), petroleum and coal products (S.I.C. 360-369), chemicals and chemical products (S.I.C. 370-379), and miscellaneous manufacturing industries (S.I.C. 380-399).

**Building (404, 421)** - The sum of general contractors (S.I.C. 1704) and special trade contractors (S.I.C. 421).

**Engineering (406-409)** - The sum of highway, bridge and street construction (S.I.C. 406) and other construction (S.I.C. 409).

In addition, the synthetic textile industry (201) is subdivided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).

## Employment

Employment data represent all employees on the payrolls of reporting units in the reference period. The employee concept excludes owners or partners in unincorporated businesses, non-directors, the self-employed, unpaid family workers, persons on non-remunerative volunteer work, pensioners, home workers,

sur demande une liste indiquant le territoire compris dans chaque région urbaine en s'adressant à la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail. Les unités de déclaration situées ailleurs que dans une région urbaine retenue sont comprises dans les chiffres du comté, de la province et de la région.

## Classification par activité économique

Tous les établissements appartiennent à une branche d'activité économique, qui est déterminée en fonction de leur activité principale. Si un établissement a plusieurs activités économiques, son activité principale est déterminée par la plus grande valeur nette ajoutée de ces activités, ou si cela n'est pas possible, par les recettes brutes au titre des différentes activités. Si un établissement exerce des activités très diverses, on ne le transfère pas nécessairement d'une branche à l'autre chaque fois que son activité principale change.

Les statistiques tirées de l'enquête sont fondées sur la Classification type des industries de 1960. On peut trouver une description des diverses activités économiques et groupes d'activités économiques dans le "Manuel de la classification type des industries", n° 12-501 au catalogue (1960). Les colonnes "code de la C.T.I." des principaux tableaux renvoient à ce manuel. Les tableaux renferment quelques groupements qui ne se trouvent pas dans la Classification type des industries. Ce sont:

**Ensemble des industries (031-899)** - l'ensemble des activités économiques visées par l'enquête. (voir Champ de l'enquête)

**Manufactures, biens durables (durable)** - l'ensemble de l'industrie des produits du bois (C.T.I. 250-259), de l'industrie des meubles et accessoires d'ameublement (C.T.I. 260-269), de l'industrie des métaux (formes primaires) (C.T.I. 290-298), de l'industrie des produits métalliques (C.T.I. 300-309), de l'industrie de la machinerie (sauf le matériel électrique) (C.T.I. 310-318), de l'industrie du matériel de transport (C.T.I. 320-329), de l'industrie des appareils et du matériel électriques (C.T.I. 330-339), et de l'industrie des produits minéraux non métalliques (C.T.I. 340-359).

**Manufactures, biens non durables (non dur.)** - L'ensemble de l'industrie des aliments et boissons (C.T.I. 100-147), de l'industrie du traitement et des produits du tabac (C.T.I. 150-153), de l'industrie des produits du caoutchouc (C.T.I. 160-169), de l'industrie des produits du cuir (C.T.I. 170-179), de l'industrie des produits du textile (C.T.I. 180-229), de l'industrie de la bonneterie (C.T.I. 230-239), de l'industrie du vêtement (C.T.I. 240-249), de l'industrie du papier et des produits connexes (C.T.I. 270-274) de l'imprimerie, de l'édition et des industries connexes (C.T.I. 280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (C.T.I. 360-369), de l'industrie chimique et des produits connexes (C.T.I. 370-379) et des industries manufacturières diverses (C.T.I. 380-399).

**Bâtiment (404, 421)** - L'ensemble des entrepreneurs généraux (C.T.I. 404) et des entrepreneurs spécialisés (C.T.I. 421).

**Genie civil (C.T.I. 406-409)** - L'ensemble de la construction de routes, ponts et rues (C.T.I. 406) et des autres constructions (C.T.I. 409).

En outre, l'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).

## Emploi

Les données sur l'emploi représentent tous les salariés inscrits aux registres de paye des unités de déclaration au cours de la période de référence. Le concept des salariés exclut les propriétaires actifs ou partenaires d'entreprises non constituées en corporation, les membres des conseils d'administration qui ne travaillent pas dans l'entreprise, les travailleurs

and persons providing services to an establishment on the basis of a contract for services. Counted as employed, therefore, are all wage-earners and salaried employees who are paid for their services or are on paid absence during the reference period, except for casual employees working less than seven hours in the pay period. *Regular part-time* employees are treated as employed regardless of the number of hours worked during the pay period.

For example, an employee working for a part of the reference period and unemployed or on strike for the rest, is counted as employed. Employees not receiving pay for the entire reference period because of strike or as a consequence of a strike, or those persons on leave without pay, are not included among the employed.

### Wage-earners

Wage-earners are defined by occupation rather than by the method of payment. They are those employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. Wage-earners may be paid a fixed monthly amount or on the basis of hours worked. The survey covers all wage-earners regardless of the method of payment and average weekly wages are computed for all. However, derivations of average weekly hours and average hourly earnings are based only upon data for wage-earners for whom hours data are available.

### Salaried Employees

Salaried employees constitute executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

### Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained this combined data entitled "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in

autonomes, les travailleurs familiaux non rémunérés, les bénévoles, pensionnés, les travailleurs à domicile et les personnes fournissant des services à forfait ou sous contrat. Sont donc considérés comme salariés les ouvriers et tous les employés qui sont rémunérés pour leurs services qui sont en congé payé pendant la période de référence, à l'exception des occasionnels ayant travaillé moins de sept heures pendant la période payée. Les *salariés réguliers à temps partiel* sont comptés parmi les salariés quel que soit le nombre d'heures qu'ils travaillent pendant la période payée.

Par exemple, une personne travaillant une partie de la période de référence et en chômage ou en grève le reste de la période, est comptée comme occupée. Les salariés qui ne sont pas rémunérés pour toute la période de référence à cause d'une grève ou des conséquences d'une grève ou les personnes en congé sans paye ne figurent pas parmi les personnes occupées.

### Ouvriers

L'ouvrier est défini par la nature du travail plutôt que par le mode de rémunération. Les ouvriers sont les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Les ouvriers peuvent être rémunérés sur une base mensuelle fixe ou suivant le nombre d'heures travaillées. L'enquête couvre tous les ouvriers quel que soit leur mode de rémunération et les gains hebdomadaires moyens sont calculés pour tous. Toutefois, les heures hebdomadaires moyennes et les rémunérations horaires moyennes sont calculées uniquement d'après les données relatives aux ouvriers dont on peut connaître le nombre d'heures de travail.

### Employés

Les employés comprennent les directeurs, les administrateurs, surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

### Rémunération

Les rémunérations des ouvriers et des employés représentent les gains bruts de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les salaires, la rémunération au taux ordinaire, la rémunération du travail aux pièces, les commissions régulières, les primes au rendement, les primes de vieillesse, les autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de l'enquête. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'œuvre tels que les cotisations de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents de travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur de la pension, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "rémunérations" désigne l'ensemble des gains des ouvriers et des employés. Les publications antérieures à mars 1971 renfermaient des données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "rémunérations hebdomadaires moyennes" des salariés pris en compte ici. Ce système p

present publication. The system now provides separate earnings for all wage-earners and salaried employees whereas formerly "Average Weekly Wages" for hourly-rated wage-earners was available.

## Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly-average of the total base employment (or payroll). The current employment consists of all employment reported by establishments that meet our size criteria in the current period. Base year employment consists of the employment of establishments that had 20 or more employees in any month of 1961. The payroll index is calculated in a similar fashion.

Seasonally-adjusted index numbers remove from the employment indexes those regularly recurring fluctuations known as "seasonal variations". The adjusted index numbers thus approximate the trend, cycle, and irregular components of the time series. The X-11 method of the U.S. Census Method II is used to calculate the seasonally-adjusted index numbers; additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series January 1961 - December 1971" (Catalogue 72-202).

## Averages

The average weekly hours figure is obtained by dividing total weekly man-hours by the number of wage-earners who worked those hours. Average hourly earnings are obtained by dividing total weekly earnings of hourly-rated wage-earners by their total weekly hours. Both these averages apply only to the subset of wage-earners for whom weekly details are reported. It should be noted that total hours include both full-time hours actually worked and that the wage-earner total includes part-time wage-earners and casuals working more than seven hours during one week. Annual statistics are calculated from the monthly data, with the exception of those shown as preliminary (p); the latter are based on monthly averages.

## Statistical Presentation

Each month, statistics for three months are prepared by the Monthly Employment, Payrolls and Labour Income Section. Data for the most current month, are entitled first estimates. They are based on a limited number of returns (usually about 50%) and only preliminary, aggregated figures are released in the Statistics Canada Daily Bulletin. The First Estimates table of this publication. Simultaneously, preliminary estimates are prepared for the month immediately preceding the most current data and third estimates for the month prior to that. These latter estimates are of higher quality than that of the first estimates because of the higher rate of returns (typically, 65% and 75%, respectively). Consequently full details for both months are shown in this publication.

After completion of the third estimate, further revisions to the statistics are made to incorporate late returns and corrected information received from our respondents or to rectify mechanical errors. Larger corrections are calculated immediately and appear in the historical tables and in column for the previous year in tables 2, 3 and 4 of this publication. The smaller corrections are completed in the preliminary tabulations when all returns are retabulated to produce revised monthly, and annual averages; these data are contained in catalogue 72-201 and 72-202.

maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "rémunérations hebdomadaires moyennes" des ouvriers rémunérés à taux horaire.

## Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base. Le nombre courant de salariés est l'ensemble des salariés déclarés par les établissements dont la taille répond à notre critère pendant la période courante. Le nombre de salariés pour l'année de base est le nombre de salariés des établissements employant 20 salariés ou plus pendant n'importe quel mois de l'année 1961. L'indice de la rémunération est calculé de la même manière.

La désaisonnalisation des nombres-indices a pour effet d'éliminer des indices de l'emploi les fluctuations qui se produisent à intervalles réguliers et qui s'appellent variations saisonnières. Les nombres-indices désaisonnalisés représentent donc assez bien la tendance, le cycle et les composantes irrégulières de la série chronologique. La variante X-11 de la méthode II du recensement des Etats-Unis est utilisée pour calculer les nombres-indices désaisonnalisés; on peut trouver d'autres séries désaisonnalisées dans "Emploi, rémunérations et heures, séries désaisonnalisées janvier 1961-décembre 1971" (n° 72-206 au catalogue).

## Moyennes

On calcule les heures hebdomadaires moyennes en divisant le nombre total d'heures-hommes par le nombre d'ouvriers qui ont fait ces heures. On obtient les rémunérations horaires moyennes en divisant la rémunération hebdomadaire totale des ouvriers rémunérés à l'heure par le nombre total de leurs heures par semaine. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. À remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le total des ouvriers comprend les ouvriers à temps partiel et les occasionnels qui travaillent plus de sept heures par semaine. À l'exception des statistiques provisoires (p), qui sont fondées sur les moyennes mensuelles, les statistiques annuelles sont établies à partir de l'ensemble des données mensuelles.

## Présentation statistique

Chaque mois, la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail prépare des statistiques pour trois mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (environ 50%) et seuls des chiffres très généraux sont publiés dans Le Quotidien de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième estimations pour le mois qui précède celui-là. Ces deux dernières estimations sont de meilleure qualité que les premières en raison de la disponibilité d'un plus grand nombre de réponses (d'habitude 65% pour les deuxième estimations et 75% pour les troisième). Par conséquent, la présente publication contient tous les détails pour ces deux mois.

Une fois terminées les troisième estimations, on effectue d'autres rectifications à la lumière des déclarations des retardataires et des corrections reçues de nos enquêtés, ou par suite de la correction de certaines erreurs mécaniques. Les corrections les plus importantes sont effectuées immédiatement; elles paraissent dans les tableaux chronologiques et spéciaux ainsi que dans la colonne de l'année précédente aux tableaux 2, 3 et 4 de la présente publication. Les corrections de moindre importance sont effectuées dans les tableaux annuels quand toutes les réponses ont été totalisées de nouveau en vue de la production de chiffres et de moyennes annuelles rectifiées; ces données sont publiées dans les publications 72-201 et 72-202.

## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- — amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## NOTE

In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- — nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

## NOTA

On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et d'ouvriers indiqués séparément, signifient que les données relatives à ces ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.

**First Estimates(1) – February 1977**  
(Seasonally-adjusted)

The first estimates of the Canada industrial composite(2) of employment (1961=100) showed a 0.1% decrease from January to February. Declines were recorded in all industry divisions, with the exception of forestry. The Atlantic and Prairie regions were the only regions recording increases.

Average weekly earnings rose 1.0% at the national industrial composite level in February. All industry divisions and all regions participated in the overall increase.

**Preliminary Data(1) – January 1977**

ment

Seasonally adjusted, preliminary data for January 1977 showed no change in the Canada industrial composite index of employment from December to January. Gains registered in mining, transportation, communication and other utilities, in trade and insurance and real estate were cancelled by declines in the other industry divisions. The retail sector of trade showed the largest increase while construction recorded the major decline. Broad decreases were also reported in the durable and non-durable goods of manufacturing. At the regional level, Ontario and the Prairie region were the only ones registering increases.

s and Hours

Seasonally adjusted, average weekly earnings regressed 0.8% at the national industrial composite level. Transportation, communication and other utilities, and service posted gains, mining remained the same and all other industry divisions registered losses. Ontario and the Prairie declined whereas the remaining regions advanced.

Unadjusted, average weekly earnings rose by 2.1% to \$239.00 at the national industrial composite level. Average hourly earnings rose by one cent in mining to \$7.86, by eight cents in manufacturing to \$6.10 and by 31 cents in construction to \$9.27. Average weekly earnings increased in these three industry divisions.

Following are two tables summarizing the variations in all industry divisions that occurred in 1976 compared to 1975.

Note on Statistical Presentation under Concepts and Methods at the back of this publication.

The Industrial Composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year.

**Premières estimations(1) – février 1977**  
(chiffres désaisonnalisés)

Les premières estimations de l'emploi dans l'ensemble des industries(2) du Canada (1961=100) révèlent une baisse de 0.1% de janvier à février. À l'exception du forestage, toutes les divisions de l'activité économique ont régressé. Les régions de l'Atlantique et des Prairies furent les seules régions à enregistrer les gains.

En février, les gains hebdomadaires moyens au niveau de l'ensemble des activités économiques du Canada ont progressé de 1.0%. Toutes les divisions de l'activité économique et toutes les régions ont enregistré des hausses.

**Données provisoires(1) – janvier 1977**

Emploi

Après désaisonnalisation, les données provisoires pour janvier 1977 ne montrent aucun changement de décembre à janvier au niveau de l'emploi dans l'ensemble des industries du Canada. Les gains qu'ont connus les mines, les transports, communications et autres services publics, le commerce et les finances, assurances et immeuble ont été annulés par les pertes qu'ont subies les autres divisions de l'activité économique. Le secteur du commerce de détail a enregistré les gains les plus importants alors que la construction accusait la principale baisse. Les secteurs des biens durables et non durables des manufactures ont également connu des baisses généralisées. À l'échelle régionale, l'Ontario et la région des Prairies furent les seules à progresser.

Gains et heure de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont abaissés de 0.8% au niveau de l'ensemble des industries du Canada. Les transports, communications et autres services publics de même que les services ont enregistré des hausses, les mines n'ont pas varié et toutes les autres divisions de l'activité économique ont accusé des baisses. L'Ontario et le Québec ont régressé alors que les autres régions progressaient.

Les gains hebdomadaires moyens, sans désaisonnalisation, ont augmenté de 2.1% pour atteindre \$239.00 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens se sont accrus de un cent dans les mines (\$7.86), de huit cents dans les manufactures (\$6.10) et de 31 cents dans la construction (\$9.27). Le nombre moyen d'heures hebdomadaires travaillées s'est élevé dans ces trois divisions de l'activité économique.

Vous trouverez ci-après deux tableaux résumant les changements dans les principales divisions de l'activité économique qui se sont produits en 1976 comparativement à 1975.

- (1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense. Toutes les statistiques sont fondées sur les déclarations envoyées par les employeurs comptant au moins 20 salariés au cours d'un mois quelconque de l'année.

First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

## **STATISTICAL DATA ON EMPLOYMENT, EARNINGS AND HOURS(1)**

(based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

Employment indexes (1961 = 100).

Average weekly earnings (formerly titled average weekly wages and salaries).

Average weekly hours and average hourly earnings of hourly-rated wage-earners.

Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).

Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

### **1957-1960**

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

### **1961-1970**

*Employment Indexes, 1961-1964, for Canada and Ontario, for railways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, Catalogue 72-002, October 1971.*

*Employment Indexes, 1965-1967, for Canada and Ontario, for railways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. Catalogue 72-002, February 1968.*

*Average Weekly Earnings, 1961-1969 for:*

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Quebec: Transportation, communication and other utilities; Transportation.

Ontario: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971.*

*Average Weekly Earnings, 1968-1970, for Canada, Ontario and Quebec, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesaling; trade; industrial composite. Catalogue 72-002, February 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Hourly Wages of Hourly-rated Wage-earners 1961-1967 for:*

Canada: Highways, bridges and streets; Engineering; Construction.

## **DONNÉES CHRONOLOGIQUES SUR L'EMPLOI, LES GAINS ET LA DURÉE DU TRAVAIL(1)**

(fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).

2. Gains hebdomadaires moyens.

3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).

4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).

5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

### **A. 1957-1960**

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967* Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

### **B. 1961-1970**

*Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971.*

*Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le n° 72-002 au catalogue, février 1968.*

*Gains hebdomadaires moyens, 1961-1969, pour:*

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971.*

*Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Québec pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le n° 72-002 au catalogue, février 1972.*

*Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:*

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.*

All other available monthly and annual data for 1961-1964 are published in:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.*

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

### C. 1971-1973

*Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.*

*Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.*

*Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.*

All other series are published in the monthly issues of *Catalogue 72-002 for 1971, 1972 and 1973.*

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n° 72-002 au catalogue, juin 1972.

*Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n° 72-002 au catalogue, décembre 1971.*

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n° 72-504 au catalogue.*

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n°s 72-201 et 72-202 au catalogue, 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1968-1970.

### C. 1971-1973

*Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n° 72-002 au catalogue, juillet 1974.*

*Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communication et autres services publics et l'ensemble des industries. Voir le n° 72-002 au catalogue septembre 1974.*

*Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires - moyennes et rémunération horaire moyenne des ouvriers (heures - déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n° 72-002 au catalogue, septembre 1974.*

Toutes les autres séries sont publiées dans les bulletins mensuels n° 72-002 au catalogue pour les années 1971, 1972 et 1973.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

## CONCEPTS AND METHODS

Each month the Monthly Employment, Payrolls and Labour Force Section of the Labour Division, through a mail survey, collects information on employment, earnings and hours which are tabulated and presented in this report. Data which, prior to March 1971, were published separately in "Employment and Average Weekly Wages and Salaries" (Catalogue 72-002) and in "Man-Hours and Hourly Earnings" (Catalogue 72-003) have been combined in this report. The following notes explain the concepts and methods used in the survey.

### Reporting Unit

The reporting unit is usually the establishment, that is, the smallest industrial unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including information on inputs and outputs needed to calculate "value added" or "gross mark-up" or "gross profit" as well as data on employment and payrolls. For purposes of detailed geographic statistics, the Section requests that the reporting unit be a sub-establishment unit which, although not capable of reporting all basic statistics, can report employment and payroll data for that particular location.

Generally, the survey covers larger companies only, that is, companies having 20 or more employees in any month of the year. However, all the establishments of a multi-establishment company are included if the company had 20 or more employees in total in any month of the year even though any single establishment may have had a few employees.

### Reference Period

Conceptually, the figures refer to the last seven days in the selected months. In practice, few establishments keep payroll records covering precisely this period and establishments are therefore permitted to report for their last pay period or pay periods in each month.

When the reported pay period is longer than one week, the payroll data are reduced to one week's proportion of the totals. The denominators of the fractions used in calculating these weekly equivalents are 5, 6 or 7, depending on the number of working days per week in which the establishment operated in the pay period. The numerators of the fractions are the number of working days in the reported pay periods. For employees paid at annual or monthly rates, their earnings are not affected by the number of working days in the month; fixed proportions are used to reduce the earnings to a weekly basis without regard to the length of the calendar month.

When a holiday, layoff or industrial dispute occurs in an establishment that reports a pay period that is different from the last seven days of the month, an adjustment is made to the data, if the holiday or dispute affects the two periods differently, so that the data accurately reflects the actual situation during the reference period.

### Scope

All industries are covered by the survey, with the exceptions of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private household and public administration and defence. Because of the limitation of the survey to larger firms, there is somewhat uneven coverage of employment by industry as well as by province and urban area. The percentage of total employment covered depends on the proportion

## CONCEPTS ET MÉTHODES

Chaque mois, la Section des Statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail de la Division du travail recueille, par voie d'enquête postale, des données sur l'emploi, les gains et les heures de travail, données qui sont ensuite publiées ici sous forme de tableaux. Les données qui, avant mars 1971, étaient publiées séparément dans "Employment and Average Weekly Wages and Salaries" (n° 72-002 au catalogue) et dans "Man-Hours and Hourly Earnings" (n° 72-003 au catalogue) sont regroupées ici. Les notes qui suivent expliquent les concepts et la méthodologie de l'enquête.

### Unité de déclaration

L'unité de déclaration est ordinairement l'établissement, c'est-à-dire la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques, y compris les données sur les entrées et les sorties qui sont nécessaires pour calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut" ainsi que des données sur l'emploi et les rémunérations. Pour obtenir des statistiques géographiques détaillées, la Section demande souvent que l'unité de déclaration se situe à un niveau qui est en deçà de celui de l'établissement, mais qui permet quand même d'obtenir des données sur l'emploi et les rémunérations à ce niveau, même si, par définition, ce niveau ne peut fournir toutes les statistiques de base.

En règle générale, l'enquête vise seulement les grandes entreprises, c'est-à-dire les entreprises employant 20 salariés ou plus au cours de n'importe quel mois de l'année. Toutefois, tous les établissements d'une entreprise à établissements multiples sont pris en compte si l'entreprise emploie 20 salariés ou plus, au total, au cours de n'importe quel mois de l'année, même si un de ces établissements peut n'avoir eu que quelques salariés.

### Période de référence

En théorie, l'enquête vise les chiffres des sept derniers jours des mois de référence. Vu qu'en pratique peu d'établissements tiennent des registres de paye pour cette période précise, on permet aux établissements de faire porter leurs chiffres sur la (ou les) dernière(s) période(s) de paye de chaque mois.

Si la période de paye visée dépasse une semaine, les chiffres sont réduits en conséquence. Les numérateurs des fractions utilisées pour calculer l'équivalent hebdomadaire sont 5, 6 ou 7, suivant le nombre de jours ouvrables par semaine où l'établissement a été en exploitation pendant la période de paye. Les dénominateurs des fractions sont le nombre de jours ouvrables des diverses périodes de paye. Dans le cas du personnel qui est rémunéré sur une base annuelle ou mensuelle et dont les gains ne sont pas touchés par le nombre de jours ouvrables au cours du mois, on utilise des proportions fixes pour ramener les gains sur une base hebdomadaire, sans tenir compte de la longueur du mois civil.

En cas de jour férié, de congédiement ou de conflit du travail dans un établissement dont la période de paye ne correspond pas aux sept derniers jours du mois, les données sont rectifiées lorsque l'effet du jour férié, du congédiement ou du conflit n'est pas le même sur les deux périodes, de manière que les données soient le reflet fidèle de la situation pendant la période de référence.

### Champ de l'enquête

Toutes les branches d'activité économique sont prises en compte dans l'enquête, à l'exception de l'agriculture, de la pêche et du piégeage, de l'éducation et des services connexes, des services d'hygiène et de bien-être, des organismes religieux, des ménages et de l'administration publique et de la défense. Parce que l'enquête se limite aux grandes entreprises, le champ d'observation de l'emploi par branche d'activité, par province et par région urbaine manque quelque peu d'uniformité. Le

tion of larger to smaller establishments. This proportion varies considerably among industries. The following table shows annual employment as reported in the survey as a percentage of the estimated total employment, the latter being estimated by adding together data from the employment and payrolls survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of total employment are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

pourcentage de l'emploi total qui est observé dépend du rapport des grands établissements aux petits établissements. Cette proportion varie considérablement d'une branche à l'autre. Le tableau suivant indique le chiffre annuel de l'emploi, tel qu'il ressort de l'enquête, en pourcentage du chiffre estimatif de l'emploi total, ce dernier étant la somme des résultats de l'enquête sur l'emploi et la rémunération et des résultats d'une enquête par échantillon auprès des petites entreprises ainsi que d'autres enquêtes supplémentaires. Des estimations du nombre total d'employés sont publiées sous le titre "Estimations du nombre d'employés par province et par industrie" (n° 72-008 au catalogue).

Larger-Firm Survey Employment as a Percentage of Total Estimated Employment, by Industry Division, for Canada and Provinces, 1972 Annual Averages(1)

Emploi des grandes entreprises en tant que pourcentage de l'estimation de l'emploi total par branche d'activité pour le Canada et les provinces, moyennes annuelles de 1972(1)

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes recreational, business, personal and miscellaneous services only; data has not been published previously. - Comprend seulement les services récréatifs, commerciaux, personnels et divers; ces données n'ont pas été publiées auparavant.
- (3) These percentages are small because non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont petits parce que les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services and public administration and defence; data has not been published previously. - Ne comprend pas les services non commerciaux et l'administration publique et de la défense; ces données n'ont pas été publiées auparavant.
- (5) These percentages are smaller because both non-commercial services and public administration and defence are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont plus petits parce que les services non commerciaux de même que l'administration publique et la défense nationale sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (6) Data for forestry and construction by province are not available for periods more recent than 1970. Les données pour le foréstage et la construction ne sont pas disponibles par province après l'année 1970.

## Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas. The definitions used for other urban areas are based on a labour market concept; the areas usually include the surrounding territory as well as the urban centre. A list showing the territory included in each tabulated urban area is available from the Monthly Employment,

## Classification géographique

Les unités de déclaration sont affectées à une province, à un comté (selon la définition établie par le recensement de la population) et, s'il y a lieu, à une région urbaine. Les données de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick sont agrégées dans certains tableaux présentant des statistiques pour la région de l'Atlantique. De la même manière, les données du Manitoba, de la Saskatchewan et de l'Alberta sont additionnées pour former le total pour la région des Prairies. On a retenu la définition de "région métropolitaine" établie pour le recensement de la population dans le cas des dix-neuf régions urbaines applicables. Les définitions employées pour les autres régions urbaines sont fondées sur le concept du marché du travail; les régions englobent généralement le territoire avoisinant avec le centre urbain. On peut obtenir

rolls and Labour Income Section. The reporting units not located in a tabulated urban area are included in county, provincial and national totals.

## Industrial Classification

All establishments are assigned to an industrial class on the basis of their principal activity. If an establishment is engaged in a number of different industrial activities, its principal activity is determined by the largest net value added by these activities, or where not possible, by the gross revenue obtained from the different activities. When an establishment has very mixed activities, it is not necessarily shifted from industry to industry each time its principal activity changes.

Statistics from the survey are based on the 1960 Standard Industrial Classification. A description of the various industries and codes of industries may be found in the "Standard Industrial Classification Manual", Catalogue 12-501 (1960). The "S.I.C. code" numbers in the main tables refer to this manual. The tables contain groupings not found in the Standard Industrial Classification. These include:

**Industrial composite (031-899)** - The sum of the industries included in the survey. (see Coverage)

**Durable goods manufacturing (durable)** - The sum of wood products (S.I.C. 250-259), furniture and fixtures (S.I.C. 260-269), primary metal industries (S.I.C. 290-298), metal fabricating industries (S.I.C. 300-309), machinery (except electrical) (S.I.C. 310-318), transportation equipment (S.I.C. 320-329), electrical products (S.I.C. 330-339), and non-metallic mineral products (S.I.C. 340-359).

**Non-durable goods manufacturing (non-dur)** - The sum of food and beverages (S.I.C. 100-147), tobacco processing and products (S.I.C. 150-153), rubber products (S.I.C. 160-169), leather products (S.I.C. 170-179), textile products (S.I.C. 180-229), knitting mills (S.I.C. 230-239), clothing (S.I.C. 240-249), paper and allied industries (S.I.C. 270-274), printing, publishing and allied industries (S.I.C. 280-289), petroleum and coal products (S.I.C. 360-369), chemicals and chemical products (S.I.C. 370-379), and miscellaneous manufacturing industries (S.I.C. 380-399).

**Building (404,421)** - The sum of general contractors (S.I.C. 404) and special trade contractors (S.I.C. 421).

**Engineering (406-409)** - The sum of highway, bridge and street construction (S.I.C. 406) and other construction (S.I.C. 409).

In addition, the synthetic textile industry (201) is subdivided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).

## Employment

Employment data represent all employees on the payrolls of reporting units in the reference period. The employee concept excludes owners or partners in unincorporated businesses, non-directors, the self-employed, unpaid family workers, persons on non-remunerative volunteer work, pensioners, home workers,

sur demande une liste indiquant le territoire compris dans chaque région urbaine en s'adressant à la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail. Les unités de déclaration situées ailleurs que dans une région urbaine retenue sont comprises dans les chiffres du comté, de la province et de la région.

## Classification par activité économique

Tous les établissements appartiennent à une branche d'activité économique, qui est déterminée en fonction de leur activité principale. Si un établissement a plusieurs activités économiques, son activité principale est déterminée par la plus grande valeur nette ajoutée de ces activités, ou si cela n'est pas possible, par les recettes brutes au titre des différentes activités. Si un établissement exerce des activités très diverses, on ne le transfère pas nécessairement d'une branche à l'autre chaque fois que son activité principale change.

Les statistiques tirées de l'enquête sont fondées sur la Classification type des industries de 1960. On peut trouver une description des diverses activités économiques et groupes d'activités économiques dans le "Manuel de la classification type des industries", n° 12-501 au catalogue (1960). Les colonnes "code de la C.T.I." des principaux tableaux renvoient à ce manuel. Les tableaux renferment quelques groupements qui ne se trouvent pas dans la Classification type des industries. Ce sont:

**Ensemble des industries (031-899)** - l'ensemble des activités économiques visées par l'enquête. (voir Champ de l'enquête)

**Manufactures, biens durables (durable)** - l'ensemble de l'industrie des produits du bois (C.T.I. 250-259), de l'industrie des meubles et accessoires d'ameublement (C.T.I. 260-269), de l'industrie des métaux (formes primaires) (C.T.I. 290-298), de l'industrie des produits métalliques (C.T.I. 300-309), de l'industrie de la machinerie (sauf le matériel électrique) (C.T.I. 310-318), de l'industrie du matériel de transport (C.T.I. 320-329), de l'industrie des appareils et du matériel électriques (C.T.I. 330-339), et de l'industrie des produits minéraux non métalliques (C.T.I. 340-359).

**Manufactures, biens non durables (non dur.)** - L'ensemble de l'industrie des aliments et boissons (C.T.I. 100-147), de l'industrie du traitement et des produits du tabac (C.T.I. 150-153), de l'industrie des produits du caoutchouc (C.T.I. 160-169), de l'industrie des produits du cuir (C.T.I. 170-179), de l'industrie des produits du textile (C.T.I. 180-229), de l'industrie de la bonneterie (C.T.I. 230-239), de l'industrie du vêtement (C.T.I. 240-249), de l'industrie du papier et des produits connexes (C.T.I. 270-274) de l'imprimerie, de l'édition et des industries connexes (C.T.I. 280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (C.T.I. 360-369), de l'industrie chimique et des produits connexes (C.T.I. 370-379) et des industries manufacturières diverses (C.T.I. 380-399).

**Bâtiment (404, 421)** - L'ensemble des entrepreneurs généraux (C.T.I. 404) et des entrepreneurs spécialisés (C.T.I. 421).

**Genie civil (C.T.I. 406-409)** - L'ensemble de la construction de routes, ponts et rues (C.T.I. 406) et des autres constructions (C.T.I. 409).

En outre, l'industrie des textiles synthétiques (201) est subdivisée en fils et tissus (2011) et en fils de filaments et fibres discontinues (2012).

## Emploi

Les données sur l'emploi représentent tous les salariés inscrits aux registres de paye des unités de déclaration au cours de la période de référence. Le concept des salariés exclut les propriétaires actifs ou partenaires d'entreprises non constituées en corporation, les membres des conseils d'administration qui ne travaillent pas dans l'entreprise, les travailleurs

and persons providing services to an establishment on the basis of a contract for services. Counted as employed, therefore, are all wage-earners and salaried employees who are paid for their services or are on paid absence during the reference period, except for casual employees working less than seven hours in the pay period. *Regular part-time* employees are treated as employed regardless of the number of hours worked during the pay period.

For example, an employee working for a part of the reference period and unemployed or on strike for the rest, is counted as employed. Employees not receiving pay for the entire reference period because of strike or as a consequence of a strike, or those persons on leave without pay, are not included among the employed.

### Wage-earners

Wage-earners are defined by occupation rather than by the method of payment. They are those employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. Wage-earners may be paid a fixed monthly amount or on the basis of hours worked. The survey covers all wage-earners regardless of the method of payment and average weekly wages are computed for all. However, derivations of average weekly hours and average hourly earnings are based only upon data for wage-earners for whom hours data are available.

### Salaried Employees

Salaried employees constitute executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

### Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained this combined data entitled "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in

autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les pensionnés, les travailleurs à domicile et les personnes fournissant des services à forfait ou sous contrat. Sont donc considérés comme salariés tous les ouvriers et tous les employés qui sont rémunérés pour leurs services ou qui sont en congé payé pendant la période de référence, à l'exception des occasionnels ayant travaillé moins de sept heures pendant la période de paye. Les *salariés réguliers à temps partiel* sont comptés parmi les salariés quel que soit le nombre d'heures qu'ils travaillent pendant la période de paye.

Par exemple, une personne travaillant une partie de la période de référence et en chômage ou en grève le reste de la période, est comptée comme occupée. Les salariés qui ne sont pas rémunérés pour toute la période de référence à cause d'une grève ou des conséquences d'une grève, ou les personnes en congé sans paye ne figurent pas parmi les personnes occupées.

### Ouvriers

L'ouvrier est défini par la nature du travail plutôt que par le mode de rémunération. Les ouvriers sont les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Les ouvriers peuvent être rémunérés sur une base mensuelle fixe ou suivant le nombre d'heures travaillées. L'enquête couvre tous les ouvriers quel que soit leur mode de rémunération et les gains hebdomadaires moyens sont calculés pour tous. Toutefois, les heures hebdomadaires moyennes et les rémunérations horaires moyennes sont calculées uniquement d'après les données relatives aux ouvriers dont on peut connaître le nombre d'heures de travail.

### Employés

Les employés comprennent les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, à bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

### Rémunération

Les rémunérations des ouvriers et des employés représentent les gains bruts de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les salaires, la rémunération au taux ordinaire, la rémunération du travail aux pièces et commissions régulières, les primes au rendement, les primes de vie chère, autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de l'enquête. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les cotisations de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie à la caisse d'indemnisation des accidents de travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur de la pension, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "rémunérations" désigne l'ensemble des gains des ouvriers et des employés. Les publications antérieures à mars 1971 renfermaient des données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "rémunérations hebdomadaires moyennes" des salariés pris en compte ici. Ce système peut

present publication. The system now provides separate earnings for all wage-earners and salaried employees whereas formerly "Average Weekly Wages" for hourly-rated wage-earners was able.

## Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly-average of the total base employment (or payroll). The current employment consists of all employment reported by establishments that meet our size criteria in current period. Base year employment consists of the employment establishments that had 20 or more employees in any month of the base year. The payroll index is calculated in a similar fashion.

Seasonally-adjusted index numbers remove from the employment indexes those regularly recurring fluctuations known as "seasonal variations". The adjusted index numbers thus approximate the cycle, and irregular components of the time series. The X-11 method of the U.S. Census Bureau is used to calculate the seasonally-adjusted index numbers; additional seasonally-adjusted data may be found in "Employment, earnings and hours, seasonally-adjusted series January 1961 - December 1971" (Catalogue 72-206).

## Averages

The average weekly hours figure is obtained by dividing total man-hours by the number of wage-earners who worked those hours. Average hourly earnings are obtained by dividing total weekly earnings of hourly-rated wage-earners by their total weekly hours. Both averages apply only to the subset of wage-earners for whom details are reported. It should be noted that total hours include only hours actually worked and that the wage-earner total includes part-time wage-earners and casuals working more than seven hours during one week. Annual statistics are calculated from the monthly data, with the exception of those shown as preliminary (p); the latter are based on monthly averages.

## Statistical Presentation

Each month, statistics for three months are prepared by the Employment, Payrolls and Labour Income Section. Data for the current month, are entitled first estimates. They are based on a limited number of returns (usually about 50%) and only aggregated figures are released in the Statistics Canada Daily First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the current data and third estimates for the month prior to that. These latter estimates are of higher quality than that of the first estimates (of the higher rate of returns (typically, 65% and 75%, respectively). Consequently full details for both months are shown in this publication.

After completion of the third estimate, further revisions to the data are made to incorporate late returns and corrected information from our respondents or to rectify mechanical errors. Larger corrections are calculated immediately and appear in the historical tables and in column for the previous year in tables 2, 3 and 4 of this publication. The smaller corrections are completed in the annual tabulations when all returns are retabulated to produce revised annual averages; these data are contained in catalogue 72-202.

maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "rémunérations hebdomadaires moyennes" des ouvriers rémunérés à taux horaire.

## Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base. Le nombre courant de salariés est l'ensemble des salariés déclarés par les établissements dont la taille répond à notre critère pendant la période courante. Le nombre de salariés pour l'année de base est le nombre de salariés des établissements employant 20 salariés ou plus pendant n'importe quel mois de l'année 1961. L'indice de la rémunération est calculé de la même manière.

La désaisonnalisation des nombres-indices a pour effet d'éliminer des indices de l'emploi les fluctuations qui se produisent à intervalles réguliers et qui s'appellent variations saisonnières. Les nombres-indices désaisonnalisés représentent donc assez bien la tendance, le cycle et les composantes irrégulières de la série chronologique. La variante X-11 de la méthode II du recensement des Etats-Unis est utilisée pour calculer les nombres-indices désaisonnalisés; on peut trouver d'autres séries désaisonnalisées dans "Emploi, rémunérations et heures, séries désaisonnalisées janvier 1961-décembre 1971" (n° 72-206 au catalogue).

## Moyennes

On calcule les heures hebdomadaires moyennes en divisant le nombre total d'heures-hommes par le nombre d'ouvriers qui ont fait ces heures. On obtient les rémunérations horaires moyennes en divisant la rémunération hebdomadaire totale des ouvriers rémunérés à l'heure par le nombre total de leurs heures par semaine. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. À remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le total des ouvriers comprend les ouvriers à temps partiel et les occasionnels qui travaillent plus de sept heures par semaine. À l'exception des statistiques provisoires (p), qui sont fondées sur les moyennes mensuelles, les statistiques annuelles sont établies à partir de l'ensemble des données mensuelles.

## Présentation statistique

Chaque mois, la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail prépare des statistiques pour trois mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (environ 50%) et seuls des chiffres très généraux sont publiés dans Le Quotidien de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième estimations pour le mois qui précède celui-là. Ces deux dernières estimations sont de meilleure qualité que les premières en raison de la disponibilité d'un plus grand nombre de réponses (d'habitude 65% pour les deuxième estimations et 75% pour les troisième). Par conséquent, la présente publication contient tous les détails pour ces deux mois.

Une fois terminées les troisième estimations, on effectue d'autres rectifications à la lumière des déclarations des retardataires et des corrections reçues de nos enquêtés, ou par suite de la correction de certaines erreurs mécaniques. Les corrections les plus importantes sont effectuées immédiatement; elles paraissent dans les tableaux chronologiques et spéciaux ainsi que dans la colonne de l'année précédente aux tableaux 2, 3 et 4 de la présente publication. Les corrections de moindre importance sont effectuées dans les tableaux annuels quand toutes les réponses ont été totalisées de nouveau en vue de la production de chiffres et de moyennes annuelles rectifiés; ces données sont publiées dans les publications 72-201 et 72-202.

## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- — amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## NOTE

In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- — nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

## NOTA

On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés ou ouvriers indiqués séparément, signifient que les données relatives à ces derniers pour lesquels les heures sont enregistrées ne sont pas disponibles.

## COMMENTARY

### First Estimates(1) – March 1977

(Seasonally Adjusted)

The first estimates of the Canada industrial composite(2) index of employment (1961=100) showed a 0.3% decrease from February to March. Declines were recorded in all industry divisions with the exception of finance, insurance and real estate which increased, and of manufacturing which did not vary. Except for Québec, which remained unchanged, all regions registered decreases.

Average weekly earnings rose 0.6% at the national industrial composite level in March. Industry divisions not participating in the overall advance were forestry, mining (including milling) and service. All regions posted gains except the Prairie region which showed a decrease.

### Preliminary Data – February 1977

#### Employment

Seasonally adjusted, preliminary data for February 1977 registered 0.1% in the Canadian industrial composite index of employment. Mining (including milling), manufacturing, construction and trade were the contributors to this decrease; the other industry divisions registered small gains.

#### Earnings and Hours

Seasonally adjusted, average weekly earnings advanced 1.2% at the national industrial composite level. All industry divisions and all regions, except the Atlantic, posted gains.

Unadjusted, average weekly earnings rose 1.2% to \$242.27 at the national industrial composite level in February. Average hourly earnings increased by four cents in mining (including milling) to \$7.88, by seven cents in manufacturing to \$6.18 and by five cents in construction to \$9.49. Average weekly hours advanced in manufacturing and in construction but declined in mining (including milling).

(1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.

(2) Industrial Composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year.

## OBSERVATIONS

### Premières estimations(1) – Mars 1977

(chiffres désaisonnalisés)

Les premières estimations de l'emploi pour l'ensemble des industries(2) du Canada (1961=100) révèlent un fléchissement de 0.3% de février à mars. Toutes les divisions de l'activité économique ont accusé des baisses à l'exception des finances, assurances et immeuble où l'on a enregistré des gains et des manufactures qui n'ont subi aucune modification. À l'exception du Québec qui n'a montré aucune variation, toutes les régions ont régressé.

En mars, les gains hebdomadaires moyens au niveau de l'ensemble des activités économiques du Canada ont augmenté de 0.6%. Les divisions de l'activité économique qui n'ont pas contribué à ce gain furent le forage, les mines (y compris le broyage) et les services. À l'exception de la région des Prairies où l'on a enregistré des baisses, toutes les régions ont connu des hausses.

### Données provisoires – Février 1977

#### Emploi

Après désaisonnalisation, les données provisoires pour février 1977 montrent un recul de 0.1% au niveau de l'emploi dans l'ensemble des industries du Canada. Les mines (y comprise le broyage), les manufactures, la construction et le commerce furent les constituantes de ce recul, les autres divisions de l'activité économique ayant enregistré des gains.

#### Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, ont progressé de 1.2% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique et toutes les régions, sauf celle de l'Atlantique, ont connu des hausses.

Les gains hebdomadaires moyens, non désaisonnalisés, se sont haussés de 1.2% pour atteindre \$242.27 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens se sont accrus de quatre cents dans les mines (y compris le broyage) (\$7.88), de sept cents dans les manufactures (\$6.18) et de cinq cents dans la construction (\$9.49). Le nombre moyen d'heures hebdomadaires travaillées s'est élevé dans les manufactures et la construction mais s'est abaissé dans les mines (y compris le broyage).

(1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.

(2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense. Toutes les statistiques sont fondées sur les déclarations envoyées par les employeurs comptant au moins 20 salariés au cours d'un mois quelconque de l'année.

1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice des prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly earnings relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly earnings for any month is therefore adjusted in the above table by the Consumer Price Index for the following month as more representative of the period in which earnings are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. This table relates to average weekly earnings of all employees. - Nota: 1. Les rémunérations hebdomadaires courantes ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des rémunérations hebdomadaires courantes pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les rémunérations sont dépensées. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au Catalogue. 3. Ce tableau a trait à la rémunération hebdomadaire moyenne de tous les salariés.

TABLE 8. Index Numbers (1961=100) of Average Hourly Earnings in Selected Industries, for Canada 1962-1977

# **ISTORICAL DATA ON EMPLOYMENT, EARNINGS AND HOURS(1)** (based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

Employment indexes (1961 = 100).

Average weekly earnings (formerly titled average weekly wages and salaries).

Average weekly hours and average hourly earnings of hourly-rated wage-earners.

Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).

Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

## **1957-1960**

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

## **1961-1970**

*Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, Catalogue 72-002, October 1971.*

*Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. Catalogue 72-002, February 1968.*

*Average Weekly Earnings, 1961-1969 for:*

a: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Scotia: Transportation, communication and other utilities; Transportation.

c: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971.*

*Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. Catalogue 72-002, February 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:*

a: Highways, bridges and streets; Engineering; Construction.

# **DONNÉES CHRONOLOGIQUES SUR L'EMPLOI, LES GAINS ET LA DURÉE DU TRAVAIL(1)** (fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).

2. Gains hebdomadaires moyens.

3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).

4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).

5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

## **A. 1957-1960**

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, n° 72-201 au catalogue, 1957-1967 Review of Man Hours and Hourly Earnings, n° 72-202 au catalogue, 1957-1967.

## **B. 1961-1970**

*Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971.*

*Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le n° 72-002 au catalogue, février 1968.*

*Gains hebdomadaires moyens, 1961-1969, pour:*

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. n° 72-002 au catalogue, novembre 1971.

*Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le n° 72-002 au catalogue, février 1972.*

*Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:*

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.*

All other available monthly and annual data for 1961-1964 are published in:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.*

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

### C. 1971-1973

*Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.*

*Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.*

*Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.*

All other series are published in the monthly issues of *Catalogue 72-002 for 1971, 1972 and 1973.*

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n° 72-002 catalogue, juin 1972.

*Heures hebdomadaires moyennes, rémunération horaire moyenne hebdomadaire moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n° 72-002 au catalogue décembre 1971.*

Toutes les autres données mensuelles et annuelles disponibles 1961-1964 sont publiées dans:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n° 72-504 au catalogue.*

Toutes les autres données mensuelles et annuelles disponibles pour 1965 figurent dans les n°s 72-201 et 72-202 au catalogue 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles publiées dans les n°s 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1968-1970.

### C. 1971-1973

*Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada - Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins, le commerce de détail, le commerce et l'ensemble des industries. Voir le n° 72-002 au catalogue, juillet 1974.*

*Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communication et autres services publics et l'ensemble des industries. Voir le n° 72-002 au catalogue septembre 1974.*

*Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires - moyennes et rémunération horaire moyenne des ouvriers (heures - déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n° 72-002 au catalogue, septembre 1974.*

Toutes les autres séries sont publiées dans les bulletins mensuels n° 72-002 au catalogue pour les années 1971, 1972 et 1973.

(1) Les numéros des publications susmentionnées renferment les données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

## CONCEPTS AND METHODS

Each month the Monthly Employment, Payrolls and Labour Income Section of the Labour Division, through a mail survey, collects information on employment, earnings and hours which are tabulated and present the data in this report. Data which, prior to March 1971, were published separately in "Employment and Average Weekly Wages and Salaries" (Catalogue 72-002) and in "Man-Hours and Hourly Earnings" (Catalogue 72-003) have been combined in this report. The following notes explain the concepts and methods used in the survey.

### Reporting Unit

The reporting unit is usually the establishment, that is, the smallest industrial unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including information on inputs and outputs needed to calculate "value added" or "gross mark-up" or "gross profit" as well as data on employment and payrolls. For purposes of detailed geographic statistics, the Section requests that the reporting unit be a sub-establishment unit which, although not capable of reporting all basic statistics, can report employment and payroll data for that particular location.

Generally, the survey covers larger companies only, that is, companies having 20 or more employees in any month of the year. However, all the establishments of a multi-establishment company are included if the company had 20 or more employees in total in any month of the year even though any single establishment may have had a few employees.

### Reference Period

Conceptually, the figures refer to the last seven days in the month. In practice, few establishments keep payroll records covering precisely this period and establishments are therefore requested to report for their last pay period or pay periods in each month.

When the reported pay period is longer than one week, the payroll data are reduced to one week's proportion of the totals. The denominators of the fractions used in calculating these weekly equivalents are 5, 6 or 7, depending on the number of working days per week in which the establishment operated in the pay period. The denominators of the fractions are the number of working days in the last pay periods. For employees paid at annual or monthly rates, their earnings are not affected by the number of working days in the month; fixed proportions are used to reduce the earnings to a weekly basis without regard to the length of the calendar month.

When a holiday, layoff or industrial dispute occurs in an establishment that reports a pay period that is different from the last seven days of the month, an adjustment is made to the data, if the holiday, layoff or dispute affects the two periods differently, so that the data accurately reflects the actual situation during the reference period.

### Coverage

All industries are covered by the survey, with the exceptions of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private household and public administration and defence. Because of the limitation of the survey to larger firms, there is somewhat uneven coverage of employment by industry as well as by province and urban area. The percentage of total employment covered depends on the proportion

## CONCEPTS ET MÉTHODES

Chaque mois, la Section des Statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail de la Division du travail recueille, par voie d'enquête postale, des données sur l'emploi, les gains et les heures de travail, données qui sont ensuite publiées ici sous forme de tableaux. Les données qui, avant mars 1971, étaient publiées séparément dans "Employment and Average Weekly Wages and Salaries" (n° 72-002 au catalogue) et dans "Man-Hours and Hourly Earnings" (n° 72-003 au catalogue) sont regroupées ici. Les notes qui suivent expliquent les concepts et la méthodologie de l'enquête.

### Unité de déclaration

L'unité de déclaration est ordinairement l'établissement, c'est-à-dire la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques, y compris les données sur les entrées et les sorties qui sont nécessaires pour calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut" ainsi que des données sur l'emploi et les rémunérations. Pour obtenir des statistiques géographiques détaillées, la Section demande souvent que l'unité de déclaration se situe à un niveau qui est en deça de celui de l'établissement, mais qui permet quand même d'obtenir des données sur l'emploi et les rémunérations à ce niveau, même si, par définition, ce niveau ne peut fournir toutes les statistiques de base.

En règle générale, l'enquête vise seulement les grandes entreprises, c'est-à-dire les entreprises employant 20 salariés ou plus au cours de n'importe quel mois de l'année. Toutefois, tous les établissements d'une entreprise à établissements multiples sont pris en compte si l'entreprise emploie 20 salariés ou plus, au total, au cours de n'importe quel mois de l'année, même si un de ces établissements peut n'avoir eu que quelques salariés.

### Période de référence

En théorie, l'enquête vise les chiffres des sept derniers jours des mois de référence. Vu qu'en pratique peu d'établissements tiennent des registres de paye pour cette période précise, on permet aux établissements de faire porter leurs chiffres sur la (ou les) dernière(s) période(s) de paye de chaque mois.

Si la période de paye visée dépasse une semaine, les chiffres sont réduits en conséquence. Les numérateurs des fractions utilisées pour calculer l'équivalent hebdomadaire sont 5, 6 ou 7, suivant le nombre de jours ouvrables par semaine où l'établissement a été en exploitation pendant la période de paye. Les dénominateurs des fractions sont le nombre de jours ouvrables des diverses périodes de paye. Dans le cas du personnel qui est rémunéré sur une base annuelle ou mensuelle et dont les gains ne sont pas touchés par le nombre de jours ouvrables au cours du mois, on utilise des proportions fixes pour ramener les gains sur une base hebdomadaire, sans tenir compte de la longueur du mois civil.

En cas de jour férié, de congédiement ou de conflit du travail dans un établissement dont la période de paye ne correspond pas aux sept derniers jours du mois, les données sont rectifiées lorsque l'effet du jour férié, du congédiement ou du conflit n'est pas le même sur les deux périodes, de manière que les données soient le reflet fidèle de la situation pendant la période de référence.

### Champ de l'enquête

Toutes les branches d'activité économique sont prises en compte dans l'enquête, à l'exception de l'agriculture, de la pêche et du piégeage, de l'éducation et des services connexes, des services d'hygiène et de bien-être, des organismes religieux, des ménages et de l'administration publique et de la défense. Parce que l'enquête se limite aux grandes entreprises, le champ d'observation de l'emploi par branche d'activité, par province et par région urbaine manque quelque peu d'uniformité. Le

tion of larger to smaller establishments. This proportion varies considerably among industries. The following table shows annual employment as reported in the survey as a percentage of the estimated total employment, the latter being estimated by adding together data from the employment and payrolls survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of total employment are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

pourcentage de l'emploi total qui est observé dépend du rapport des grands établissements aux petits établissements. Cette proportion varie considérablement d'une branche à l'autre. Le tableau suivant indique le chi annuel de l'emploi, tel qu'il ressort de l'enquête, en pourcentage du chi estimatif de l'emploi total, ce dernier étant la somme des résultats de l'enquête sur l'emploi et la rémunération et des résultats d'une enquête d'échantillon auprès des petites entreprises ainsi que d'autres enquêtes supplémentaires. Des estimations du nombre total d'employés sont publiées sous le titre "Estimations du nombre d'employés par province et industrie" (n° 72-008 au catalogue).

Larger-Firm Survey Employment as a Percentage of Total Estimated Employment, by Industry Division, for Canada and Provinces, 1972 Annual Averages(1)

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes recreational, business, personal and miscellaneous services only; data has not been published previously. - Comprend seulement services récréatifs, commerciaux, personnels et divers; ces données n'ont pas été publiées auparavant.
- (3) These percentages are small because non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont petits parce que les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services and public administration and defence; data has not been published previously. - Ne comprend pas les services non commerciaux et l'administration publique et de la défense; ces données n'ont pas été publiées auparavant.
- (5) These percentages are smaller because both non-commercial services and public administration and defence are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont plus petits parce que les services non commerciaux de même que l'administration publique et la défense nationale sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (6) Data for forestry and construction by province are not available for periods more recent than 1970. Les données pour le forestage et la construction ne sont pas disponibles par province après l'année 1970.

## Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas. The definitions used for other urban areas are based on a labour market concept; the areas usually include the surrounding territory as well as the urban centre. A list showing the territory included in each tabulated urban area is available from the Monthly Employment,

## Classification géographique

Les unités de déclaration sont affectées à une province, à un comté (selon la définition établie par le recensement de la population) et, s'il y a lieu, à une région urbaine. Les données de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick sont agrégées dans certains tableaux présentant des statistiques pour la région de l'Atlantique. De la même manière, les données du Manitoba, de la Saskatchewan et de l'Alberta sont additionnées pour former le total de la région des Prairies. On a retenu la définition de "région métropolitaine" établie pour le recensement de la population dans le cas des dix-neuf régions urbaines applicables. Les définitions employées pour les autres régions urbaines sont fondées sur le concept du marché du travail; les régions urbaines incluent généralement le territoire avoisinant avec le centre urbain. On peut obtenir une liste montrant le territoire inclus dans chaque région urbaine tabulée à partir du Monthly Employment,

rolls and Labour Income Section. The reporting units not located in a tabulated urban area are included in county, provincial and national totals.

## Industrial Classification

All establishments are assigned to an industrial class on the basis of their principal activity. If an establishment is engaged in a number of different industrial activities, its principal activity is determined by the largest net value added by these activities, or where it is not possible, by the gross revenue obtained from the different activities. When an establishment has very mixed activities, it is not necessarily shifted from industry to industry each time its principal activity changes.

Statistics from the survey are based on the 1960 Standard Industrial Classification. A description of the various industries and groups of industries may be found in the "Standard Industrial Classification Manual", Catalogue 12-501 (1960). The "S.I.C. code" names in the main tables refer to this manual. The tables contain a groupings not found in the Standard Industrial Classification. These include:

*Industrial composite* (031-899) - The sum of the industries included in the survey. (see Coverage)

*Durable goods manufacturing* (durable) - The sum of wood products (S.I.C. 250-259), furniture and fixtures (S.I.C. 260-269), primary metal industries (S.I.C. 290-298), metal fabricating industries (S.I.C. 300-309), machinery (except electrical) (S.I.C. 310-318), transportation equipment (S.I.C. 320-329), electrical products (S.I.C. 330-339), and non-metallic mineral products (S.I.C. 340-359).

*Non-durable goods manufacturing* (non-dur) - The sum of food and beverages (S.I.C. 100-147), tobacco processing and products (S.I.C. 150-153), rubber products (S.I.C. 160-169), leather products (S.I.C. 170-179), textile products (S.I.C. 180-229), knitting mills (S.I.C. 230-239), clothing (S.I.C. 240-249), paper and allied industries (S.I.C. 270-274), printing, publishing and allied industries (S.I.C. 280-289), petroleum and coal products (S.I.C. 360-369), chemicals and chemical products (S.I.C. 370-379), and miscellaneous manufacturing industries (S.I.C. 380-399).

*Building* (404,421) - The sum of general contractors (S.I.C. 404) and special trade contractors (S.I.C. 421).

*Engineering* (406-409) - The sum of highway, bridge and street construction (S.I.C. 406) and other construction (S.I.C. 409).

In addition, the synthetic textile industry (201) is subdivided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).

## Employment

Employment data represent all employees on the payrolls of reporting units in the reference period. The employee concept excludes owners or partners in unincorporated businesses, non-union directors, the self-employed, unpaid family workers, persons on non-remunerative volunteer work, pensioners, home workers,

sur demande une liste indiquant le territoire compris dans chaque région urbaine en s'adressant à la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail. Les unités de déclaration situées ailleurs que dans une région urbaine retenue sont comprises dans les chiffres du comté, de la province et de la région.

## Classification par activité économique

Tous les établissements appartiennent à une branche d'activité économique, qui est déterminée en fonction de leur activité principale. Si un établissement a plusieurs activités économiques, son activité principale est déterminée par la plus grande valeur nette ajoutée de ces activités, ou si cela n'est pas possible, par les recettes brutes au titre des différentes activités. Si un établissement exerce des activités très diverses, on ne le transfère pas nécessairement d'une branche à l'autre chaque fois que son activité principale change.

Les statistiques tirées de l'enquête sont fondées sur la Classification type des industries de 1960. On peut trouver une description des diverses activités économiques et groupes d'activités économiques dans le "Manuel de la classification type des industries", n° 12-501 au catalogue (1960). Les colonnes "code de la C.T.I." des principaux tableaux renvoient à ce manuel. Les tableaux renferment quelques groupements qui ne se trouvent pas dans la Classification type des industries. Ce sont:

*Ensemble des industries* (031-899) - l'ensemble des activités économiques visées par l'enquête. (voir Champ de l'enquête)

*Manufactures, biens durables* (durable) - l'ensemble de l'industrie des produits du bois (C.T.I. 250-259), de l'industrie des meubles et accessoires d'ameublement (C.T.I. 260-269), de l'industrie des métaux (formes primaires) (C.T.I. 290-298), de l'industrie des produits métalliques (C.T.I. 300-309), de l'industrie de la machinerie (sauf le matériel électrique) (C.T.I. 310-318), de l'industrie du matériel de transport (C.T.I. 320-329), de l'industrie des appareils et du matériel électriques (C.T.I. 330-339), et de l'industrie des produits minéraux non métalliques (C.T.I. 340-359).

*Manufactures, biens non durables* (non dur.) - L'ensemble de l'industrie des aliments et boissons (C.T.I. 100-147), de l'industrie du traitement et des produits du tabac (C.T.I. 150-153), de l'industrie des produits du caoutchouc (C.T.I. 160-169), de l'industrie des produits du cuir (C.T.I. 170-179), de l'industrie des produits du textile (C.T.I. 180-229), de l'industrie de la bonneterie (C.T.I. 230-239), de l'industrie du vêtement (C.T.I. 240-249), de l'industrie du papier et des produits connexes (C.T.I. 270-274) de l'imprimerie, de l'édition et des industries connexes (C.T.I. 280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (C.T.I. 360-369), de l'industrie chimique et des produits connexes (C.T.I. 370-379) et des industries manufacturières diverses (C.T.I. 380-399).

*Bâtiment* (404, 421) - L'ensemble des entrepreneurs généraux (C.T.I. 404) et des entrepreneurs spécialisés (C.T.I. 421).

*Genie civil* (C.T.I. 406-409) - L'ensemble de la construction de routes, ponts et rues (C.T.I. 406) et des autres constructions (C.T.I. 409).

En outre, l'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).

## Emploi

Les données sur l'emploi représentent tous les salariés inscrits aux registres de paye des unités de déclaration au cours de la période de référence. Le concept des salariés exclut les propriétaires actifs ou partenaires d'entreprises non constituées en corporation, les membres des conseils d'administration qui ne travaillent pas dans l'entreprise, les travailleurs

and persons providing services to an establishment on the basis of a contract for services. Counted as employed, therefore, are all wage-earners and salaried employees who are paid for their services or are on paid absence during the reference period, except for casual employees working less than seven hours in the pay period. *Regular part-time* employees are treated as employed regardless of the number of hours worked during the pay period.

For example, an employee working for a part of the reference period and unemployed or on strike for the rest, is counted as employed. Employees not receiving pay for the entire reference period because of strike or as a consequence of a strike, or those persons on leave without pay, are not included among the employed.

### Wage-earners

Wage-earners are defined by occupation rather than by the method of payment. They are those employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. Wage-earners may be paid a fixed monthly amount or on the basis of hours worked. The survey covers all wage-earners regardless of the method of payment and average weekly wages are computed for all. However, derivations of average weekly hours and average hourly earnings are based only upon data for wage-earners for whom hours data are available.

### Salaried Employees

Salaried employees constitute executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

### Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained this combined data entitled "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in

autonomes, les travailleurs familiaux non rémunérés, les bénévoles, pensionnés, les travailleurs à domicile et les personnes fournissant des services à forfait ou sous contrat. Sont donc considérés comme salariés tous les ouvriers et tous les employés qui sont rémunérés pour leurs services qui sont en congé payé pendant la période de référence, à l'exception des occasionnels ayant travaillé moins de sept heures pendant la période payée. Les *salariés réguliers à temps partiel* sont comptés parmi les salariés quel que soit le nombre d'heures qu'ils travaillent pendant la période payée.

Par exemple, une personne travaillant une partie de la période de référence et en chômage ou en grève le reste de la période, est comptée comme occupée. Les salariés qui ne sont pas rémunérés pour toute la période de référence à cause d'une grève ou des conséquences d'une grève ou les personnes en congé sans paye ne figurent pas parmi les personnes occupées.

### Ouvriers

L'ouvrier est défini par la nature du travail plutôt que par le mode de rémunération. Les ouvriers sont les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Les ouvriers peuvent être rémunérés sur une base mensuelle fixe ou suivant le nombre d'heures travaillées. L'enquête couvre tous les ouvriers quel que soit leur mode de rémunération et les gains hebdomadaires moyens sont calculés pour tous. Toutefois, les heures hebdomadaires moyennes et les rémunérations horaires moyennes sont calculées uniquement d'après les données relatives aux ouvriers dont on peut connaître le nombre d'heures de travail.

### Employés

Les employés comprennent les directeurs, les administrateurs, surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

### Rémunération

Les rémunérations des ouvriers et des employés représentent les gains bruts de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les salaires, la rémunération au taux ordinaire, la rémunération du travail aux pièces, les commissions régulières, les primes au rendement, les primes de vieillesse, autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de l'enquête. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les cotisations de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents de travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur de la pension, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "rémunérations" désigne l'ensemble des gains des ouvriers et des employés. Les publications antérieures à mars 1971 renfermaient des données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "rémunérations hebdomadaires moyennes" des salariés pris en compte ici. Ce système pe

present publication. The system now provides separate earnings for all wage-earners and salaried employees whereas formerly "Average Weekly Wages" for hourly-rated wage-earners was available.

## Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly-average of the total base employment (or payroll). The current employment consists of all employment reported by establishments that meet our size criteria in the current period. Base year employment consists of the employment of establishments that had 20 or more employees in any month of 1961. The payroll index is calculated in a similar fashion.

Seasonally-adjusted index numbers remove from the employment indexes those regularly recurring fluctuations known as "seasonal variations". The adjusted index numbers thus approximate the trend, cycle, and irregular components of the time series. The X-11 method of the U.S. Census Method II is used to calculate the seasonally-adjusted index numbers; additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series January 1961 - December 1971" (Catalogue 72-206).

## Averages

The average weekly hours figure is obtained by dividing total weekly man-hours by the number of wage-earners who worked those hours. Average hourly earnings are obtained by dividing total weekly earnings of hourly-rated wage-earners by their total weekly hours. Both these averages apply only to the subset of wage-earners for whom details are reported. It should be noted that total hours include both full-time hours actually worked and that the wage-earner total includes part-time wage-earners and casuals working more than seven hours during one week. Annual statistics are calculated from the monthly data, with the exception of those shown as preliminary (p); the latter are based on monthly averages.

## Statistical Presentation

Each month, statistics for three months are prepared by the Employment, Payrolls and Labour Income Section. Data for the most current month, are entitled first estimates. They are based on a limited number of returns (usually about 50%) and only aggregated figures are released in the Statistics Canada Daily First Estimates table of this publication. Simultaneously, first estimates are prepared for the month immediately preceding the most current data and third estimates for the month prior to that. These latter estimates are of higher quality than that of the first estimate of the higher rate of returns (typically, 65% and 75%, respectively). Consequently full details for both months are shown in this publication.

After completion of the third estimate, further revisions to the data are made to incorporate late returns and corrected information received from our respondents or to rectify mechanical errors. Larger corrections are calculated immediately and appear in the historical tables and in column for the previous year in tables 2, 3 and 4 of this publication. The smaller corrections are completed in the tabulations when all returns are retabulated to produce revised monthly and annual averages; these data are contained in catalogue 72-202.

maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "rémunérations hebdomadaires moyennes" des ouvriers rémunérés à taux horaire.

## Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base. Le nombre courant de salariés est l'ensemble des salariés déclarés par les établissements dont la taille répond à notre critère pendant la période courante. Le nombre de salariés pour l'année de base est le nombre de salariés des établissements employant 20 salariés ou plus pendant n'importe quel mois de l'année 1961. L'indice de la rémunération est calculé de la même manière.

La désaisonnalisation des nombres-indices a pour effet d'éliminer des indices de l'emploi les fluctuations qui se produisent à intervalles réguliers et qui s'appellent variations saisonnières. Les nombres-indices désaisonnalisés représentent donc assez bien la tendance, le cycle et les composantes irrégulières de la série chronologique. La variante X-11 de la méthode II du recensement des Etats-Unis est utilisée pour calculer les nombres-indices désaisonnalisés; on peut trouver d'autres séries désaisonnalisées dans "Emploi, rémunérations et heures, séries désaisonnalisées janvier 1961-décembre 1971" (n° 72-206 au catalogue).

## Moyennes

On calcule les heures hebdomadaires moyennes en divisant le nombre total d'heures-hommes par le nombre d'ouvriers qui ont fait ces heures. On obtient les rémunérations horaires moyennes en divisant la rémunération hebdomadaire totale des ouvriers rémunérés à l'heure par le nombre total de leurs heures par semaine. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. À remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le total des ouvriers comprend les ouvriers à temps partiel et les occasionnels qui travaillent plus de sept heures par semaine. À l'exception des statistiques provisoires (p), qui sont fondées sur les moyennes mensuelles, les statistiques annuelles sont établies à partir de l'ensemble des données mensuelles.

## Présentation statistique

Chaque mois, la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail prépare des statistiques pour trois mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (environ 50%) et seuls des chiffres très généraux sont publiés dans Le Quotidien de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième estimations pour le mois qui précède celui-là. Ces deux dernières estimations sont de meilleure qualité que les premières en raison de la disponibilité d'un plus grand nombre de réponses (d'habitude 65% pour les deuxième estimations et 75% pour les troisième). Par conséquent, la présente publication contient tous les détails pour ces deux mois.

Une fois terminées les troisième estimations, on effectue d'autres rectifications à la lumière des déclarations des retardataires et des corrections reçues de nos enquêtés, ou par suite de la correction de certaines erreurs mécaniques. Les corrections les plus importantes sont effectuées immédiatement; elles paraissent dans les tableaux chronologiques et spéciaux ainsi que dans la colonne de l'année précédente aux tableaux 2, 3 et 4 de la présente publication. Les corrections de moindre importance sont effectuées dans les tableaux annuels quand toutes les réponses ont été totalisées de nouveau en vue de la production de chiffres et de moyennes annuelles rectifiées; ces données sont publiées dans les publications 72-201 et 72-202.

## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## NOTE

In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

## NOTA

On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et ouvriers indiqués séparément, signifient que les données relatives aux heures pour lesquels les heures sont enregistrées ne sont pas disponibles.

## COMMENTARY

First estimates(1) – April 1977

(Seasonally-adjusted)

The first estimates of the Canada industrial composite(2) index of employment (1961=100) indicated a 0.6% increase from March to April. With the exception of trade and of finance, insurance and real estate which declined, all industry divisions posted gains. At regional level, all regions advanced except British Columbia which registered no change.

Average weekly earnings rose 0.9% at the national industrial composite level in April. All industry divisions except finance, insurance and real estate which decreased, and all regions participated in the overall increase.

Preliminary Data – March 1977

Employment

Seasonally adjusted, preliminary data for March 1977 revealed a 0.2% increase in the Canadian industrial composite index of employment. All industry divisions recorded declines with the exception of mining (including milling), construction and service. Trade recorded the strongest decline mainly concentrated in the grocery and in the department stores of the retail sector; declines were also recorded in the transportation sector of transportation, communication and other services. Widespread gains were registered in the service industry which showed the major increases.

Earnings and Hours

Seasonally adjusted, average weekly earnings registered a 0.9% increase at the national industrial composite level. All industry divisions excluding forestry and service, and all regions posted gains.

Unadjusted, average weekly earnings rose 0.8% to \$244.28 at the national industrial composite level in March. Average hourly earnings increased by nine cents in mining (including milling) to \$9.56, by five cents in manufacturing to \$6.22, and by five cents in construction to \$9.56. Average weekly hours did not vary in mining (including milling) and in manufacturing but advanced in construction.

See note on Statistical Presentation under Concepts and Methods at the back of this publication.

The industrial composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year.

## OBSERVATIONS

Premières estimations(1) – Avril 1977

(chiffres désaisonnalisés)

Les premières estimations de l'emploi pour l'ensemble des industries(2) du Canada (1961=100) révèlent une progression de 0.6% de mars à avril. À l'exception du commerce et des finances, assurances et immobilier où l'on a enregistré des pertes, toutes les divisions de l'activité économique ont progressé. À l'échelle régionale, toutes les régions ont connu des hausses à l'exception de la Colombie-Britannique où l'on n'a enregistré aucune variation.

En avril, les gains hebdomadaires moyens au niveau de l'ensemble des activités économiques du Canada se sont accrus de 0.9%. Toutes les divisions de l'activité économique à l'exception des finances, assurances et immobilier qui ont accusé des pertes, et toutes les régions ont contribué à la hausse générale.

Données provisoires – Mars 1977

Emploi

Après désaisonnalisation, les données provisoires pour mars 1977 révèlent une régression de 0.2% au niveau de l'emploi dans l'ensemble des industries du Canada. On a observé des reculs dans toutes les divisions de l'activité économique à l'exception des mines (y compris le broyage), de la construction et des services. Les plus fortes diminutions se regroupaient dans le commerce, principalement dans les magasins d'alimentation et à rayons du secteur du commerce de détail; on a également remarqué d'autres baisses dans le secteur des transports de l'industrie des transports, communications et autres services publics. Des hausses généralisées ont été enregistrées dans les services qui ont affiché les principales augmentations.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, ont progressé de 0.8% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique, sauf le forage et les services, et toutes les régions ont enregistré des hausses.

Les gains hebdomadaires moyens, non désaisonnalisés, se sont accrus de 0.8% pour atteindre \$244.28 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens se sont haussés de neuf cents dans les mines (y compris le broyage) (\$7.99), de cinq cents dans les manufactures (\$6.22) et de cinq cents dans la construction (\$9.56). Le nombre moyen d'heures hebdomadaires travaillées n'a pas varié dans les mines (y compris le broyage) ni dans les manufactures mais a augmenté dans la construction.

- (1) Voir la partie intitulée 'Présentation statistique' sous la rubrique 'Concepts et méthodes', à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense. Toutes les statistiques sont fondées sur les déclarations envoyées par les employeurs comptant au moins 20 salariés au cours d'un mois quelconque de l'année.

1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

ote: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly earnings relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly earnings for any month is therefore adjusted in the above table by the Consumer Price Index for the following month as more representative of the period in which earnings are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. This table relates to average weekly earnings of all employees. - Nota: 1. Les rémunérations hebdomadaires courantes ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des rémunérations hebdomadaires courantes pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les rémunérations sont dépensées. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au Catalogue. 3. Ce tableau a trait à la rémunération hebdomadaire moyenne de tous les salariés.

TABLEAU 8. Indices (1961=100) de la rémunération horaire moyenne, certaines industries, Canada, 1962-1977

**HISTORICAL DATA ON EMPLOYMENT, EARNINGS AND HOURS(1)**  
(based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

Employment indexes (1961 = 100).

Average weekly earnings (formerly titled average weekly wages and salaries).

Average weekly hours and average hourly earnings of hourly-rated wage-earners.

Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).

Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

**1957-1960**

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

**1961-1970**

*Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, Catalogue 72-002, October 1971.*

*Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway bridge maintenance; transportation; and transportation, communication and other utilities. Catalogue 72-002, February 1968.*

*Average Weekly Earnings, 1961-1969 for:*

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971.*

*Average Weekly Earnings, 1968-1970, for Canada, Ontario and Quebec, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; whole-retail trade; trade; industrial composite. Catalogue 72-002, February 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:*

Canada: Highways, bridges and streets; Engineering; Construction.

**DONNÉES CHRONOLOGIQUES SUR L'EMPLOI, LES GAINS ET LA DURÉE DU TRAVAIL(1)**  
(fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).

2. Gains hebdomadaires moyens.

3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).

4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).

5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

**A. 1957-1960**

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967* Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

**B. 1961-1970**

*Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971.*

*Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le n° 72-002 au catalogue, février 1968.*

*Gains hebdomadaires moyens, 1961-1969, pour:*

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971.*

*Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Québec pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le n° 72-002 au catalogue, février 1972.*

*Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 pour:*

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

## CONCEPTS AND METHODS

Each month the Monthly Employment, Payrolls and Labour Section of the Labour Division, through a mail survey, collects information on employment, earnings and hours which are tabulated and sent the data in this report. Data which, prior to March 1971, published separately in "Employment and Average Weekly Wages and Salaries" (Catalogue 72-002) and in "Man-Hours and Hourly Earnings" (Catalogue 72-003) have been combined in this report. The following notes explain the concepts and methods used in the survey.

### Reporting Unit

The reporting unit is usually the establishment, that is, the smallest industrial unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including information on inputs and outputs needed to calculate "value added" or "mark-up" or "gross profit" as well as data on employment and earnings. For purposes of detailed geographic statistics, the Section requests that the reporting unit be a sub-establishment unit, although not capable of reporting all basic statistics, can report employment and payroll data for that particular location.

Generally, the survey covers larger companies only, that is, companies having 20 or more employees in any month of the year. However, all the establishments of a multi-establishment company are included if the company had 20 or more employees in total in any month of the year even though any single establishment may have had fewer employees.

### Reference Period

Conceptually, the figures refer to the last seven days in the reference months. In practice, few establishments keep payroll records running precisely this period and establishments are therefore requested to report for their last pay period or pay periods in each month.

When the reported pay period is longer than one week, the payroll data are reduced to one week's proportion of the totals. The denominators of the fractions used in calculating these weekly equivalents are 5, 6 or 7, depending on the number of working days per week in which the establishment operated in the pay period. The numerators of the fractions are the number of working days in the reference pay periods. For employees paid at annual or monthly rates, their earnings are not affected by the number of working days in the reference period, fixed proportions are used to reduce the earnings to a weekly basis without regard to the length of the calendar month.

When a holiday, layoff or industrial dispute occurs in an establishment that reports a pay period that is different from the last seven days of the month, an adjustment is made to the data, if the holiday, layoff or dispute affects the two periods differently, so that the data accurately reflects the actual situation during the reference period.

### Coverage

All industries are covered by the survey, with the exceptions of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private household and public administration and defence. Because of the limitation of the survey to larger firms, there is somewhat uneven coverage of employment by industry as well as by province and urban area. The percentage of total employment covered depends on the proportion

## CONCEPTS ET MÉTHODES

Chaque mois, la Section des Statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail de la Division du travail recueille, par voie d'enquête postale, des données sur l'emploi, les gains et les heures de travail, données qui sont ensuite publiées ici sous forme de tableaux. Les données qui, avant mars 1971, étaient publiées séparément dans "Employment and Average Weekly Wages and Salaries" (n° 72-002 au catalogue) et dans "Man-Hours and Hourly Earnings" (n° 72-003 au catalogue) sont regroupées ici. Les notes qui suivent expliquent les concepts et la méthodologie de l'enquête.

### Unité de déclaration

L'unité de déclaration est ordinairement l'établissement, c'est-à-dire la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques, y compris les données sur les entrées et les sorties qui sont nécessaires pour calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut" ainsi que des données sur l'emploi et les rémunérations. Pour obtenir des statistiques géographiques détaillées, la Section demande souvent que l'unité de déclaration se situe à un niveau qui est en deça de celui de l'établissement, mais qui permet quand même d'obtenir des données sur l'emploi et les rémunérations à ce niveau, même si, par définition, ce niveau ne peut fournir toutes les statistiques de base.

En règle générale, l'enquête vise seulement les grandes entreprises, c'est-à-dire les entreprises employant 20 salariés ou plus au cours de n'importe quel mois de l'année. Toutefois, tous les établissements d'une entreprise à établissements multiples sont pris en compte si l'entreprise emploie 20 salariés ou plus, au total, au cours de n'importe quel mois de l'année, même si un de ces établissements peut n'avoir eu que quelques salariés.

### Période de référence

En théorie, l'enquête vise les chiffres des sept derniers jours des registres de paye pour cette période précise, on permet aux établissements de faire porter leurs chiffres sur la (ou les) dernière(s) période(s) de paye de chaque mois.

Si la période de paye visée dépasse une semaine, les chiffres sont réduits en conséquence. Les numérateurs des fractions utilisées pour calculer l'équivalent hebdomadaire sont 5, 6 ou 7, suivant le nombre de jours ouvrables par semaine où l'établissement a été en exploitation pendant la période de paye. Les dénominateurs des fractions sont le nombre de jours ouvrables des diverses périodes de paye. Dans le cas du personnel qui est rémunéré sur une base annuelle ou mensuelle et dont les gains ne sont pas touchés par le nombre de jours ouvrables au cours du mois, on utilise des proportions fixes pour ramener les gains sur une base hebdomadaire, sans tenir compte de la longueur du mois civil.

En cas de jour férié, de congédiement ou de conflit du travail dans un établissement dont la période de paye ne correspond pas aux sept derniers jours du mois, les données sont rectifiées lorsque l'effet du jour férié, du congédiement ou du conflit n'est pas le même sur les deux périodes, de manière que les données soient le reflet fidèle de la situation pendant la période de référence.

### Champ de l'enquête

Toutes les branches d'activité économique sont prises en compte dans l'enquête, à l'exception de l'agriculture, de la pêche et du piégeage, de l'éducation et des services connexes, des services d'hygiène et de bien-être, des organismes religieux, des ménages et de l'administration publique et de la défense. Parce que l'enquête se limite aux grandes entreprises, le champ d'observation de l'emploi par branche d'activité, par province et par région urbaine manque quelque peu d'uniformité. Le

tion of larger to smaller establishments. This proportion varies considerably among industries. The following table shows annual employment as reported in the survey as a percentage of the estimated total employment, the latter being estimated by adding together data from the employment and payrolls survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of total employment are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

pourcentage de l'emploi total qui est observé dépend du rapport des grands établissements aux petits établissements. Cette proportion varie considérablement d'une branche à l'autre. Le tableau suivant indique le pourcentage annuel de l'emploi, tel qu'il ressort de l'enquête, en pourcentage du chiffre estimatif de l'emploi total, ce dernier étant la somme des résultats de l'enquête sur l'emploi et la rémunération et des résultats d'une enquête d'échantillon auprès des petites entreprises ainsi que d'autres enquêtes supplémentaires. Des estimations du nombre total d'employés sont publiées sous le titre "Estimations du nombre d'employés par province et industrie" (n° 72-008 au catalogue).

Larger-Firm Survey Employment as a Percentage of Total Estimated Employment, by Industry Division, for Canada and Provinces, 1972 Annual Averages(1)

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes recreational, business, personal and miscellaneous services only; data has not been published previously. - Comprend seulement services récréatifs, commerciaux, personnels et divers; ces données n'ont pas été publiées auparavant.
- (3) These percentages are small because non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont petits parce que les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services and public administration and defence; data has not been published previously. - Ne comprend pas les services non commerciaux et l'administration publique et de la défense; ces données n'ont pas été publiées auparavant.
- (5) These percentages are smaller because both non-commercial services and public administration and defence are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont plus petits parce que les services non commerciaux, de même que l'administration publique et la défense nationale sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (6) Data for forestry and construction by province are not available for periods more recent than 1970. Les données pour le forestage et la construction ne sont pas disponibles par province après l'année 1970.

## Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas. The definitions used for other urban areas are based on a labour market concept; the areas usually include the surrounding territory as well as the urban centre. A list showing the territory included in each tabulated urban area is available from the Monthly Employment,

## Classification géographique

Les unités de déclaration sont affectées à une province, à un comté (selon la définition établie par le recensement de la population) et, s'il y a lieu, à une région urbaine. Les données de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick sont agrégées dans certains tableaux présentant des statistiques pour la région de l'Atlantique. De la même manière, les données du Manitoba, de la Saskatchewan et de l'Alberta sont additionnées pour former le total pour la région des Prairies. On a retenu la définition de "région métropolitaine" pour les dix-neuf régions urbaines applicables. Les définitions employées pour les autres régions urbaines sont fondées sur le concept du marché du travail; les régions urbaines comprennent généralement le territoire avoisinant avec le centre urbain. On peut obtenir une liste montrant le territoire inclus dans chaque région urbaine tabulée à partir du Monthly Employment,

ils and Labour Income Section. The reporting units not located in a tabulated urban area are included in county, provincial and national totals.

## Industrial Classification

All establishments are assigned to an industrial class on the basis of their principal activity. If an establishment is engaged in a number of different industrial activities, its principal activity is determined by the largest net value added by these activities, or where not possible, by the gross revenue obtained from the different activities. When an establishment has very mixed activities, it is not arbitrarily shifted from industry to industry each time its principal activity changes.

Statistics from the survey are based on the 1960 Standard Industrial Classification. A description of the various industries and groups of industries may be found in the "Standard Industrial Classification Manual", Catalogue 12-501 (1960). The "S.I.C. code" numbers in the main tables refer to this manual. The tables contain a few groupings not found in the Standard Industrial Classification. These include:

**Industrial composite (031-899)** - The sum of the industries included in the survey. (see Coverage)

**Durable goods manufacturing (durable)** - The sum of wood products (S.I.C. 250-259), furniture and fixtures (S.I.C. 260-269), primary metal industries (S.I.C. 290-298), metal fabricating industries (S.I.C. 300-309), machinery (except electrical) (S.I.C. 310-318), transportation equipment (S.I.C. 320-329), electrical products (S.I.C. 330-339), and non-metallic mineral products (S.I.C. 340-359).

**Non-durable goods manufacturing (non-dur)** - The sum of food and beverages (S.I.C. 100-147), tobacco processing and products (S.I.C. 150-153), rubber products (S.I.C. 160-169), leather products (S.I.C. 170-179), textile products (S.I.C. 180-229), knitting mills (S.I.C. 230-239), clothing (S.I.C. 240-249), paper and allied industries (S.I.C. 270-274), printing, publishing and allied industries (S.I.C. 280-289), petroleum and coal products (S.I.C. 360-369), chemicals and chemical products (S.I.C. 370-379), and miscellaneous manufacturing industries (S.I.C. 380-399).

**Building (404,421)** - The sum of general contractors (S.I.C. 404) and special trade contractors (S.I.C. 421).

**Engineering (406-409)** - The sum of highway, bridge and street construction (S.I.C. 406) and other construction (S.I.C. 409).

In addition, the synthetic textile industry (201) is subdivided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).

## Employment

Employment data represent all employees on the payrolls of reporting units in the reference period. The employee concept excludes sole proprietors or partners in unincorporated businesses, non-union directors, the self-employed, unpaid family workers, persons engaged in non-remunerative volunteer work, pensioners, home workers,

sur demande une liste indiquant le territoire compris dans chaque région urbaine en s'adressant à la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail. Les unités de déclaration situées ailleurs que dans une région urbaine retenue sont comprises dans les chiffres du comté, de la province et de la région.

## Classification par activité économique

Tous les établissements appartiennent à une branche d'activité économique, qui est déterminée en fonction de leur activité principale. Si un établissement a plusieurs activités économiques, son activité principale est déterminée par la plus grande valeur nette ajoutée de ces activités, ou si cela n'est pas possible, par les recettes brutes au titre des différentes activités. Si un établissement exerce des activités très diverses, on ne le transfère pas nécessairement d'une branche à l'autre chaque fois que son activité principale change.

Les statistiques tirées de l'enquête sont fondées sur la Classification type des industries de 1960. On peut trouver une description des diverses activités économiques et groupes d'activités économiques dans le "Manuel de la classification type des industries", n° 12-501 au catalogue (1960). Les colonnes "code de la C.T.I." des principaux tableaux renvoient à ce manuel. Les tableaux renferment quelques groupements qui ne se trouvent pas dans la Classification type des industries. Ce sont:

**Ensemble des industries (031-899)** - l'ensemble des activités économiques visées par l'enquête. (voir Champ de l'enquête)

**Manufactures, biens durables (durable)** - l'ensemble de l'industrie des produits du bois (C.T.I. 250-259), de l'industrie des meubles et accessoires d'ameublement (C.T.I. 260-269), de l'industrie des métaux (formes primaires) (C.T.I. 290-298), de l'industrie des produits métalliques (C.T.I. 300-309), de l'industrie de la machinerie (sauf le matériel électrique) (C.T.I. 310-318), de l'industrie du matériel de transport (C.T.I. 320-329), de l'industrie des appareils et du matériel électriques (C.T.I. 330-339), et de l'industrie des produits minéraux non métalliques (C.T.I. 340-359).

**Manufactures, biens non durables (non dur.)** - L'ensemble de l'industrie des aliments et boissons (C.T.I. 100-147), de l'industrie du traitement et des produits du tabac (C.T.I. 150-153), de l'industrie des produits du caoutchouc (C.T.I. 160-169), de l'industrie des produits du cuir (C.T.I. 170-179), de l'industrie des produits du textile (C.T.I. 180-229), de l'industrie de la bonneterie (C.T.I. 230-239), de l'industrie du vêtement (C.T.I. 240-249), de l'industrie du papier et des produits connexes (C.T.I. 270-274) de l'imprimerie, de l'édition et des industries connexes (C.T.I. 280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (C.T.I. 360-369), de l'industrie chimique et des produits connexes (C.T.I. 370-379) et des industries manufacturières diverses (C.T.I. 380-399).

**Bâtiment (404, 421)** - L'ensemble des entrepreneurs généraux (C.T.I. 404) et des entrepreneurs spécialisés (C.T.I. 421).

**Genie civil (C.T.I. 406-409)** - L'ensemble de la construction de routes, ponts et rues (C.T.I. 406) et des autres constructions (C.T.I. 409).

En outre, l'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).

## Emploi

Les données sur l'emploi représentent tous les salariés inscrits aux registres de paye des unités de déclaration au cours de la période de référence. Le concept des salariés exclut les propriétaires actifs ou partenaires d'entreprises non constituées en corporation, les membres des conseils d'administration qui ne travaillent pas dans l'entreprise, les travailleurs

and persons providing services to an establishment on the basis of a contract for services. Counted as employed, therefore, are all wage-earners and salaried employees who are paid for their services or are on paid absence during the reference period, except for casual employees working less than seven hours in the pay period. *Regular part-time* employees are treated as employed regardless of the number of hours worked during the pay period.

For example, an employee working for a part of the reference period and unemployed or on strike for the rest, is counted as employed. Employees not receiving pay for the entire reference period because of strike or as a consequence of a strike, or those persons on leave without pay, are not included among the employed.

### Wage-earners

Wage-earners are defined by occupation rather than by the method of payment. They are those employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. Wage-earners may be paid a fixed monthly amount or on the basis of hours worked. The survey covers all wage-earners regardless of the method of payment and average weekly wages are computed for all. However, derivations of average weekly hours and average hourly earnings are based only upon data for wage-earners for whom hours data are available.

### Salaried Employees

Salaried employees constitute executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

### Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained this combined data entitled "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in

autonomes, les travailleurs familiaux non rémunérés, les bénévoles, pensionnés, les travailleurs à domicile et les personnes fournissant services à forfait ou sous contrat. Sont donc considérés comme salariés les ouvriers et tous les employés qui sont rémunérés pour leurs services qui sont en congé payé pendant la période de référence, à l'exception occasionnels ayant travaillé moins de sept heures pendant la période paye. Les *salariés réguliers à temps partiel* sont comptés parmi les salariés quel que soit le nombre d'heures qu'ils travaillent pendant la période paye.

Par exemple, une personne travaillant une partie de la période de référence et en chômage ou en grève le reste de la période, est comptée comme occupée. Les salariés qui ne sont pas rémunérés pour toute la période de référence à cause d'une grève ou des conséquences d'une grève ou les personnes en congé sans paye ne figurent pas parmi les personnes occupées.

### Ouvriers

L'ouvrier est défini par la nature du travail plutôt que par le mode de rémunération. Les ouvriers sont les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, chauffeurs-livriers, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Les ouvriers peuvent être rémunérés sur une base mensuelle fixe ou suivant le nombre d'heures travaillées. L'enquête couvre tous les ouvriers quel que soit leur mode de rémunération et les gains hebdomadaires moyens sont calculés pour tous. Toutefois, les heures hebdomadaires moyennes et les rémunérations horaires moyennes sont calculées uniquement d'après les données relatives aux ouvriers dont on peut connaître le nombre d'heures de travail.

### Employés

Les employés comprennent les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

### Rémunération

Les rémunérations des ouvriers et des employés représentent les gains bruts de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les salaires, la rémunération au taux ordinaire, la rémunération du travail aux pièces, les commissions régulières, les primes au rendement, les primes de vie chère, les autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de l'enquête. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les cotisations de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents de travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur de la pension, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "rémunérations" désigne l'ensemble des gains des ouvriers et des employés. Les publications antérieures à mars 1971 renfermaient des données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "rémunérations hebdomadaires moyennes" des salariés pris en compte ici. Ce système per-

present publication. The system now provides separate earnings for all wage-earners and salaried employees whereas formerly "Average Weekly Wages" for hourly-rated wage-earners was the only figure available.

## Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly-average of the total base employment (or payroll). The current employment consists of all employment reported by establishments that meet our size criteria in the current period. Base year employment consists of the employment of establishments that had 20 or more employees in any month of the base year. The payroll index is calculated in a similar fashion.

Seasonally-adjusted index numbers remove from the employment indexes those regularly recurring fluctuations known as "seasonal variations". The adjusted index numbers thus approximate the trend, cycle, and irregular components of the time series. The X-11 method of the U.S. Census Method II is used to calculate the seasonally-adjusted index numbers; additional seasonally-adjusted figures may be found in "Employment, earnings and hours, seasonally-adjusted series January 1961 - December 1971" (Catalogue no. 72-202).

es

The average weekly hours figure is obtained by dividing total man-hours by the number of wage-earners who worked those hours. Average hourly earnings are obtained by dividing total weekly earnings of hourly-rated wage-earners by their total weekly hours. Both of these averages apply only to the subset of wage-earners for whom details are reported. It should be noted that total hours include both full-time hours actually worked and that the wage-earner total includes part-time wage-earners and casuals working more than seven hours during one week. Annual statistics are calculated from the monthly data, with the exception of those shown as preliminary (p); the latter are based on monthly averages.

## Statistical Presentation

Each month, statistics for three months are prepared by the Employment, Payrolls and Labour Income Section. Data for the current month, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 50%) and only aggregated figures are released in the Statistics Canada Daily First Estimates table of this publication. Simultaneously, preliminary estimates are prepared for the month immediately preceding the current month and third estimates for the month prior to that. These latter estimates are of higher quality than that of the first estimates; of the higher rate of returns (typically, 65% and 75%, respectively). Consequently full details for both months are shown in this publication.

After completion of the third estimate, further revisions to the statistics are made to incorporate late returns and corrected information received from our respondents or to rectify mechanical errors. Larger corrections are calculated immediately and appear in the historical tables and in column for the previous year in tables 2, 3 and 4 of this publication. The smaller corrections are completed in the tables when all returns are retabulated to produce revised monthly and annual averages; these data are contained in catalogue no. 72-202.

maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "rémunérations hebdomadaires moyennes" des ouvriers rémunérés à taux horaire.

## Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base. Le nombre courant de salariés est l'ensemble des salariés déclarés par les établissements dont la taille répond à notre critère pendant la période courante. Le nombre de salariés pour l'année de base est le nombre de salariés des établissements employant 20 salariés ou plus pendant n'importe quel mois de l'année 1961. L'indice de la rémunération est calculé de la même manière.

La désaisonnalisation des nombres-indices a pour effet d'éliminer des indices de l'emploi les fluctuations qui se produisent à intervalles réguliers et qui s'appellent variations saisonnières. Les nombres-indices désaisonnalisés représentent donc assez bien la tendance, le cycle et les composantes irrégulières de la série chronologique. La variante X-11 de la méthode II du recensement des Etats-Unis est utilisée pour calculer les nombres-indices désaisonnalisés; on peut trouver d'autres séries désaisonnalisées dans "Emploi, rémunérations et heures, séries désaisonnalisées janvier 1961-décembre 1971" (no 72-206 au catalogue).

## Moyennes

On calcule les heures hebdomadaires moyennes en divisant le nombre total d'heures-hommes par le nombre d'ouvriers qui ont fait ces heures. On obtient les rémunérations horaires moyennes en divisant la rémunération hebdomadaire totale des ouvriers rémunérés à l'heure par le nombre total de leurs heures par semaine. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. À remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le total des ouvriers comprend les ouvriers à temps partiel et les occasionnels qui travaillent plus de sept heures par semaine. À l'exception des statistiques provisoires (p), qui sont fondées sur les moyennes mensuelles, les statistiques annuelles sont établies à partir de l'ensemble des données mensuelles.

## Présentation statistique

Chaque mois, la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail prépare des statistiques pour trois mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (environ 50%) et seuls des chiffres très généraux sont publiés dans Le Quotidien de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième estimations pour le mois qui précède celui-là. Ces deux dernières estimations sont de meilleure qualité que les premières en raison de la disponibilité d'un plus grand nombre de réponses (d'habitude 65% pour les deuxième estimations et 75% pour les troisième). Par conséquent, la présente publication contient tous les détails pour ces deux mois.

Une fois terminées les troisième estimations, on effectue d'autres rectifications à la lumière des déclarations des retardataires et des corrections reçues de nos enquêtés, ou par suite de la correction de certaines erreurs mécaniques. Les corrections les plus importantes sont effectuées immédiatement; elles paraissent dans les tableaux chronologiques et spéciaux ainsi que dans la colonne de l'année précédente aux tableaux 2, 3 et 4 de la présente publication. Les corrections de moindre importance sont effectuées dans les tableaux annuels quand toutes les réponses ont été totalisées de nouveau en vue de la production de chiffres et de moyennes annuelles rectifiés; ces données sont publiées dans les publications 72-201 et 72-202.

## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## NOTE

In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

## NOTA

On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et ouvriers indiqués séparément, signifient que les données relatives aux heures pour lesquels les heures sont enregistrées ne sont disponibles.

## COMMENTARY

### First Estimates(1) – May 1977 (Seasonally adjusted)

The first estimates of the Canada industrial composite(2) index of employment (1961 = 100) showed a 0.1 per cent decrease from April to May. Declines were recorded in all industry divisions except mining (including milling), manufacturing and trade. At the regional level, Quebec and the Prairie region declined, the Atlantic region showed no change and Ontario and British Columbia posted gains.

Average weekly earnings rose 0.4 per cent at the national industrial composite level in May. All industry divisions except forestry and all regions except British Columbia participated in the increase.

### Preliminary Data – April 1977

#### Employment

Seasonally adjusted, preliminary data for April 1977 advanced 0.2 per cent in the Canadian industrial composite index of employment. All industry divisions recorded gains with the exception of manufacturing where both components declined. Regions not participating in this advance were Quebec, which registered no change, and British Columbia which decreased.

#### Earnings and Hours

Seasonally adjusted, average weekly earnings rose 0.7 per cent at the national industrial composite level. Gains were recorded in all divisions and in all industry divisions except finance, insurance and real estate, and service. Unadjusted, average weekly earnings rose 0.6 per cent to \$246.05 at the Canadian industrial composite level in April. Average hourly earnings increased by six cents in manufacturing to \$6.27, by seven cents in construction to \$9.63, and decreased by two cents in mining (including milling) to \$7.97. Average weekly hours did not change in construction but declined in both manufacturing and mining (including milling).

Following are two tables summarizing the variations in all industry divisions that occurred in the first quarter of 1977 compared with the first quarter of 1976.

See note on Statistical Presentation under Concepts and Methods at the back of this publication.

Industrial Composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having twenty or more employees in any month of the year.

## OBSERVATIONS

### Premières estimations(1) – mai 1977 (chiffres désaisonnalisés)

Les premières estimations de l'emploi pour l'ensemble des industries(2) du Canada (1961 = 100) indiquent un fléchissement de 0.1 pour cent d'avril à mai. Toutes les divisions de l'activité économique ont accusé des baisses à l'exception des mines (y compris le broyage), des manufactures et du commerce. A l'échelle régionale, le Québec et la région des Prairies ont régressé, la région de l'Atlantique n'a enregistré aucune variation alors que la Colombie-Britannique et l'Ontario ont connu des hausses.

En mai, les gains hebdomadaires moyens au niveau de l'ensemble des activités économiques du Canada se sont accrus de 0.4 pour cent. Toutes les divisions de l'activité économique à l'exception du forestage ont enregistré des gains, et la Colombie-Britannique fut la seule région à ne pas connaître d'augmentations.

### Données provisoires – avril 1977

#### Emploi

Après désaisonnalisation, les données provisoires pour avril 1977 indiquent une augmentation de 0.2 pour cent au niveau de l'emploi dans l'ensemble des industries du Canada. Parmi les divisions de l'activité économique, seules les composantes de l'industrie manufacturière ont accusé une baisse. A l'exception du Québec où aucune variation n'a été enregistrée et de la Colombie-Britannique qui a connu une diminution toutes les régions ont contribué à la hausse générale.

#### Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, ont progressé de 0.7 pour cent au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique, sauf les finances, assurances et immobilier, et les services, et toutes les régions ont enregistré des hausses. En avril, les gains hebdomadaires moyens non désaisonnalisés se sont accrus de 0.6 pour cent pour atteindre \$246.05 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens se sont haussés de six cents dans les manufactures (\$6.27) et de sept cents dans la construction (\$9.63) mais ont diminué de deux cents dans les mines (y compris le broyage) (\$7.97). Le nombre moyen d'heures hebdomadaires travaillées n'a pas varié dans la construction mais s'est toutefois abaissé dans les manufactures et dans les mines (y compris le broyage).

Les deux tableaux suivants résument les variations enregistrées dans toutes les divisions de l'activité économique pour le premier trimestre de 1977 comparativement au premier trimestre de 1976.

- (1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense. Toutes les statistiques sont fondées sur les déclarations envoyées par les employeurs comptant au moins vingt salariés au cours d'un mois quelconque de l'année.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

TABLEAU 18. Rémunération horaire moyenne désaisonnalisée et non désaisonnalisée des ouvriers (heures déclarées), certaines séries, Canada - fin

Non-metals, except fuels - Autres que de métaux, sauf les combustibles:

unadjusted - non désaisonnalisé

Construction:

unadjusted - non désaisonnalisé

Building - Bâtiment:

unadjusted - non désaisonnalisé

Engineering - Génie civil:

unadjusted - non désaisonnalisé

Urban transit - Transports urbains:

unadjusted - non désaisonnalisé

Highway and bridge maintenance - Entretien des routes et ponts:

unadjusted - non désaisonnalisé

Hotels, restaurants and taverns - Hôtels, restaurants et tavernes:

unadjusted - non désaisonnalisé

Laundries, cleaners and pressers - Blanchissage, nettoyage et pressage:

unadjusted - non désaisonnalisé

[illegible]

# **HISTORICAL DATA ON EMPLOYMENT, EARNINGS AND HOURS(1)** (based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

## **A. 1957-1960**

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

## **B. 1961-1970**

*Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, Catalogue 72-002, October 1971.*

*Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Catalogue 72-002, February 1968.*

*Average Weekly Earnings, 1961-1969 for:*

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971.*

*Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. Catalogue 72-002, February 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:*

Canada: Highways, bridges and streets; Engineering; Construction.

# **DONNÉES CHRONOLOGIQUES SUR L'EMPLOI, LES GAINS ET LA DURÉE DU TRAVAIL(1)** (fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

## **A. 1957-1960**

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967* Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

## **B. 1961-1970**

*Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971.*

*Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le n° 72-002 au catalogue, février 1968.*

*Gains hebdomadaires moyens, 1961-1969, pour:*

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971.*

*Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le n° 72-002 au catalogue, février 1972.*

*Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:*

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

## CONCEPTS AND METHODS

Each month the Monthly Employment, Payrolls and Labour Income Section of the Labour Division, through a mail survey, collects information on employment, earnings and hours which are tabulated to present the data in this report. Data which, prior to March 1971, were published separately in "Employment and Average Weekly Wages and Salaries" (Catalogue 72-002) and in "Man-Hours and Hourly Earnings" (Catalogue 72-003) have been combined in this report. The following notes explain the concepts and methods used in the survey.

### Reporting Unit

The reporting unit is usually the establishment, that is, the smallest industrial unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including information on inputs and outputs needed to calculate "value added" or "gross mark-up" or "gross profit" as well as data on employment and payrolls. For purposes of detailed geographic statistics, the Section often requests that the reporting unit be a sub-establishment unit which, although not capable of reporting all basic statistics, can report employment and payroll data for that particular location.

Generally, the survey covers larger companies only, that is, companies having 20 or more employees in any month of the year. However, all the establishments of a multi-establishment company are included if the company had 20 or more employees in total in any month of the year even though any single establishment may have had only a few employees.

### Reference Period

Conceptually, the figures refer to the last seven days in the specified months. In practice, few establishments keep payroll records covering precisely this period and establishments are therefore permitted to report for their last pay period or pay periods in each month.

When the reported pay period is longer than one week, the payroll data are reduced to one week's proportion of the totals. The numerators of the fractions used in calculating these weekly equivalents are 5, 6 or 7, depending on the number of working days per week in which the establishment operated in the pay period. The denominators of the fractions are the number of working days in the different pay periods. For employees paid at annual or monthly rates, whose earnings are not affected by the number of working days in the month, fixed proportions are used to reduce the earnings to a weekly basis, without regard to the length of the calendar month.

When a holiday, layoff or industrial dispute occurs in an establishment that reports a pay period that is different from the last seven days of the month, an adjustment is made to the data, if the holiday, layoff or dispute affects the two periods differently, so that the data accurately reflects the actual situation during the reference period.

### Coverage

All industries are covered by the survey, with the exceptions of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. Because of the limitation of the survey to larger firms, there is somewhat uneven coverage of employment by industry as well as by province and urban area. The percentage of total employment covered depends on the propor-

## CONCEPTS ET MÉTHODES

Chaque mois, la Section des Statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail de la Division du travail recueille, par voie d'enquête postale, des données sur l'emploi, les gains et les heures de travail, données qui sont ensuite publiées ici sous forme de tableaux. Les données qui, avant mars 1971, étaient publiées séparément dans "Employment and Average Weekly Wages and Salaries" (n° 72-002 au catalogue) et dans "Man-Hours and Hourly Earnings" (n° 72-003 au catalogue) sont regroupées ici. Les notes qui suivent expliquent les concepts et la méthodologie de l'enquête.

### Unité de déclaration

L'unité de déclaration est ordinairement l'établissement, c'est-à-dire la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques, y compris les données sur les entrées et les sorties qui sont nécessaires pour calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut" ainsi que des données sur l'emploi et les rémunérations. Pour obtenir des statistiques géographiques détaillées, la Section demande souvent que l'unité de déclaration se situe à un niveau qui est en deça de celui de l'établissement, mais qui permet quand même d'obtenir des données sur l'emploi et les rémunérations à ce niveau, même si, par définition, ce niveau ne peut fournir toutes les statistiques de base.

En règle générale, l'enquête vise seulement les grandes entreprises, c'est-à-dire les entreprises employant 20 salariés ou plus au cours de n'importe quel mois de l'année. Toutefois, tous les établissements d'une entreprise à établissements multiples sont pris en compte si l'entreprise emploie 20 salariés ou plus, au total, au cours de n'importe quel mois de l'année, même si un de ces établissements peut n'avoir eu que quelques salariés.

### Période de référence

En théorie, l'enquête vise les chiffres des sept derniers jours des mois de référence. Vu qu'en pratique peu d'établissements tiennent des registres de paye pour cette période précise, on permet aux établissements de faire porter leurs chiffres sur la (ou les) dernière(s) période(s) de paye de chaque mois.

Si la période de paye visée dépasse une semaine, les chiffres sont réduits en conséquence. Les numérateurs des fractions utilisées pour calculer l'équivalent hebdomadaire sont 5, 6 ou 7, suivant le nombre de jours ouvrables par semaine où l'établissement a été en exploitation pendant la période de paye. Les dénominateurs des fractions sont le nombre de jours ouvrables des diverses périodes de paye. Dans le cas du personnel qui est rémunéré sur une base annuelle ou mensuelle et dont les gains ne sont pas touchés par le nombre de jours ouvrables au cours du mois, on utilise des proportions fixes pour ramener les gains sur une base hebdomadaire, sans tenir compte de la longueur du mois civil.

En cas de jour férié, de congédiement ou de conflit du travail dans un établissement dont la période de paye ne correspond pas aux sept derniers jours du mois, les données sont rectifiées lorsque l'effet du jour férié, du congédiement ou du conflit n'est pas le même sur les deux périodes, de manière que les données soient le reflet fidèle de la situation pendant la période de référence.

### Champ de l'enquête

Toutes les branches d'activité économique sont prises en compte dans l'enquête, à l'exception de l'agriculture, de la pêche et du piégeage, de l'éducation et des services connexes, des services d'hygiène et de bien-être, des organismes religieux, des ménages et de l'administration publique et de la défense. Parce que l'enquête se limite aux grandes entreprises, le champ d'observation de l'emploi par branche d'activité, par province et par région urbaine manque quelque peu d'uniformité. Le

tion of larger to smaller establishments. This proportion varies considerably among industries. The following table shows annual employment as reported in the survey as a percentage of the estimated total employment, the latter being estimated by adding together data from the employment and payrolls survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of total employment are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

pourcentage de l'emploi total qui est observé dépend du rapport des grands établissements aux petits établissements. Cette proportion varie considérablement d'une branche à l'autre. Le tableau suivant indique le chiffre annuel de l'emploi, tel qu'il ressort de l'enquête, en pourcentage du chiffre estimatif de l'emploi total, ce dernier étant la somme des résultats de l'enquête sur l'emploi et la rémunération et des résultats d'une enquête par échantillon auprès des petites entreprises ainsi que d'autres enquêtes supplémentaires. Des estimations du nombre total d'employés sont publiées sous le titre "Estimations du nombre d'employés par province et par industrie" (n° 72-008 au catalogue).

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes recreational, business, personal and miscellaneous services only; data has not been published previously. - Comprend seulement les services récréatifs, commerciaux, personnels et divers; ces données n'ont pas été publiées auparavant.
- (3) These percentages are smaller because both non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont petits parce que les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services and public administration and defence; data has not been published previously. - Ne comprend pas les services non commerciaux et l'administration publique et de la défense; ces données n'ont pas été publiées auparavant.
- (5) These percentages are smaller because both non-commercial services and public administration and defence are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont plus petits parce que les services non commerciaux, de même que l'administration publique et la défense nationale sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (6) Data for forestry and construction by province are not available for periods more recent than 1970. Les données pour le forage et la construction ne sont pas disponibles par province après l'année 1970.

**Geographic Classification**

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas. The definitions used for other urban areas are based on a labour market concept; the areas usually include the surrounding territory as well as the urban centre. A list showing the territory included in each tabulated urban area is available from the Monthly Employment,

**Classification géographique**

Les unités de déclaration sont affectées à une province, à un comté (selon la définition établie par le recensement de la population) et, s'il y a lieu, à une région urbaine. Les données de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick sont agrégées dans certains tableaux présentant des statistiques pour la région de l'Atlantique. De la même manière, les données du Manitoba, de la Saskatchewan et de l'Alberta sont additionnées pour former le total de la région des Prairies. On a retenu la définition de "région métropolitaine" établie pour le recensement de la population dans le cas des dix-neuf régions urbaines. Les définitions employées pour les autres régions urbaines sont fondées sur le concept du marché du travail; les régions englobées ordinairement le territoire avoisinant avec le centre urbain. On peut obtenir

roll and Labour Income Section. The reporting units not located in a tabulated urban area are included in county, provincial and regional totals.

## Industrial Classification

All establishments are assigned to an industrial class on the basis of their principal activity. If an establishment is engaged in a number of different industrial activities, its principal activity is determined by the largest net value added by these activities, or where this is not possible, by the gross revenue obtained from the different activities. When an establishment has very mixed activities, it is not necessarily shifted from industry to industry each time its principal activity changes.

Statistics from the survey are based on the 1960 Standard Industrial Classification. A description of the various industries and groups of industries may be found in the "Standard Industrial Classification Manual", Catalogue 12-501 (1960). The "S.I.C. code" numbers in the main tables refer to this manual. The tables contain a few groupings not found in the Standard Industrial Classification. These include:

*Industrial composite* (031-899) - The sum of the industries included in the survey. (see Coverage)

*Durable goods manufacturing* (durable) - The sum of wood products (S.I.C. 250-259), furniture and fixtures (S.I.C. 260-269), primary metal industries (S.I.C. 290-298), metal fabricating industries (S.I.C. 300-309), machinery (except electrical) (S.I.C. 310-318), transportation equipment (S.I.C. 320-329), electrical products (S.I.C. 330-339), and non-metallic mineral products (S.I.C. 340-359).

*Non-durable goods manufacturing* (non-dur) - The sum of food and beverages (S.I.C. 100-147), tobacco processing and products (S.I.C. 150-153), rubber products (S.I.C. 160-169), leather products (S.I.C. 170-179), textile products (S.I.C. 180-229), knitting mills (S.I.C. 230-239), clothing (S.I.C. 240-249), paper and allied industries (S.I.C. 270-274), printing, publishing and allied industries (S.I.C. 280-289), petroleum and coal products (S.I.C. 360-369), chemicals and chemical products (S.I.C. 370-379), and miscellaneous manufacturing industries (S.I.C. 380-399).

*Building* (404,421) - The sum of general contractors (S.I.C. 404) and special trade contractors (S.I.C. 421).

*Engineering* (406-409) - The sum of highway, bridge and street construction (S.I.C. 406) and other construction (S.I.C. 409).

In addition, the synthetic textile industry (201) is subdivided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).

## Employment

Employment data represent all employees on the payrolls of reporting units in the reference period. The employee concept excludes owners or partners in unincorporated businesses, non-paying directors, the self-employed, unpaid family workers, persons doing non-remunerative volunteer work, pensioners, home workers,

sur demande une liste indiquant le territoire compris dans chaque région urbaine en s'adressant à la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail. Les unités de déclaration situées ailleurs que dans une région urbaine retenue sont comprises dans les chiffres du comté, de la province et de la région.

## Classification par activité économique

Tous les établissements appartiennent à une branche d'activité économique, qui est déterminée en fonction de leur activité principale. Si un établissement a plusieurs activités économiques, son activité principale est déterminée par la plus grande valeur nette ajoutée de ces activités, ou si cela n'est pas possible, par les recettes brutes au titre des différentes activités. Si un établissement exerce des activités très diverses, on ne le transfère pas nécessairement d'une branche à l'autre chaque fois que son activité principale change.

Les statistiques tirées de l'enquête sont fondées sur la Classification type des industries de 1960. On peut trouver une description des diverses activités économiques et groupes d'activités économiques dans le "Manuel de la classification type des industries", n° 12-501 au catalogue (1960). Les colonnes "code de la C.T.I." des principaux tableaux renvoient à ce manuel. Les tableaux renferment quelques groupements qui ne se trouvent pas dans la Classification type des industries. Ce sont:

*Ensemble des industries* (031-899) - l'ensemble des activités économiques visées par l'enquête. (voir Champ de l'enquête)

*Manufactures, biens durables* (durable) - l'ensemble de l'industrie des produits du bois (C.T.I. 250-259), de l'industrie des meubles et accessoires d'ameublement (C.T.I. 260-269), de l'industrie des métaux (formes primaires) (C.T.I. 290-298), de l'industrie des produits métalliques (C.T.I. 300-309), de l'industrie de la machinerie (sauf le matériel électrique) (C.T.I. 310-318), de l'industrie du matériel de transport (C.T.I. 320-329), de l'industrie des appareils et du matériel électriques (C.T.I. 330-339), et de l'industrie des produits minéraux non métalliques (C.T.I. 340-359).

*Manufactures, biens non durables* (non dur.) - L'ensemble de l'industrie des aliments et boissons (C.T.I. 100-147), de l'industrie du traitement et des produits du tabac (C.T.I. 150-153), de l'industrie des produits du caoutchouc (C.T.I. 160-169), de l'industrie des produits du cuir (C.T.I. 170-179), de l'industrie des produits du textile (C.T.I. 180-229), de l'industrie de la bonneterie (C.T.I. 230-239), de l'industrie du vêtement (C.T.I. 240-249), de l'industrie du papier et des produits connexes (C.T.I. 270-274) de l'imprimerie, de l'édition et des industries connexes (C.T.I. 280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (C.T.I. 360-369), de l'industrie chimique et des produits connexes (C.T.I. 370-379) et des industries manufacturières diverses (C.T.I. 380-399).

*Bâtiment* (404, 421) - L'ensemble des entrepreneurs généraux (C.T.I. 404) et des entrepreneurs spécialisés (C.T.I. 421).

*Genie civil* (C.T.I. 406-409) - L'ensemble de la construction de routes, ponts et rues (C.T.I. 406) et des autres constructions (C.T.I. 409).

En outre, l'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).

## Emploi

Les données sur l'emploi représentent tous les salariés inscrits aux registres de paye des unités de déclaration au cours de la période de référence. Le concept des salariés exclut les propriétaires actifs ou partenaires d'entreprises non constituées en corporation, les membres des conseils d'administration qui ne travaillent pas dans l'entreprise, les travailleurs

and persons providing services to an establishment on the basis of a contract for services. Counted as employed, therefore, are all wage-earners and salaried employees who are paid for their services or are on paid absence during the reference period, except for casual employees working less than seven hours in the pay period. *Regular part-time* employees are treated as employed regardless of the number of hours worked during the pay period.

For example, an employee working for a part of the reference period and unemployed or on strike for the rest, is counted as employed. Employees not receiving pay for the entire reference period because of strike or as a consequence of a strike, or those persons on leave without pay, are not included among the employed.

### Wage-earners

Wage-earners are defined by occupation rather than by the method of payment. They are those employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. Wage-earners may be paid a fixed monthly amount or on the basis of hours worked. The survey covers all wage-earners regardless of the method of payment and average weekly wages are computed for all. However, derivations of average weekly hours and average hourly earnings are based only upon data for wage-earners for whom hours data are available.

### Salaried Employees

Salaried employees constitute executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

### Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained this combined data entitled "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in

autonomes, les travailleurs familiaux non rémunérés, les bénévoles pensionnés, les travailleurs à domicile et les personnes fournissant services à forfait ou sous contrat. Sont donc considérés comme salariés les ouvriers et tous les employés qui sont rémunérés pour leurs services qui sont en congé payé pendant la période de référence, à l'exception occasionnels ayant travaillé moins de sept heures pendant la période paye. Les *salariés réguliers à temps partiel* sont comptés parmi les salariés quel que soit le nombre d'heures qu'ils travaillent pendant la période paye.

Par exemple, une personne travaillant une partie de la période de référence et en chômage ou en grève le reste de la période, est comptée comme occupée. Les salariés qui ne sont pas rémunérés pour toute la période de référence à cause d'une grève ou des conséquences d'une grève, ou les personnes en congé sans paye ne figurent pas parmi les personnes occupées.

### Ouvriers

L'ouvrier est défini par la nature du travail plutôt que par le mode de rémunération. Les ouvriers sont les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, chauffeurs-livriers, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Les ouvriers peuvent être rémunérés sur une base mensuelle fixe ou suivant le nombre d'heures travaillées. L'enquête couvre tous les ouvriers quel que soit leur mode de rémunération et les gains hebdomadaires moyens sont calculés pour tous. Toutefois, les heures hebdomadaires moyennes et les rémunérations horaires moyennes sont calculées uniquement d'après les données relatives aux ouvriers dont on peut connaître le nombre d'heures de travail.

### Employés

Les employés comprennent les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, que les employés de bureau, les commis et les travailleurs assimilés au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

### Rémunération

Les rémunérations des ouvriers et des employés représentent les gains bruts de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend le salaire de base, la rémunération au taux ordinaire, la rémunération du travail aux pièces, commissions régulières, les primes au rendement, les primes de vie, les autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de l'enquête. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les cotisations de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents de travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur de la pension, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "rémunérations" désigne l'ensemble des gains des ouvriers et des employés. Les publications antérieures à mars 1971 renfermaient des données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "rémunérations hebdomadaires moyennes" des salariés pris en compte ici. Ce système per-

the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners was available.

## Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly-average of the total base year employment (or payroll). The current employment consists of all employment reported by establishments that meet our size criteria in the current period. Base year employment consists of the employment of establishments that had 20 or more employees in any month of 1961. The payroll index is calculated in a similar fashion.

Seasonally-adjusted index numbers remove from the employment indexes those regularly recurring fluctuations known as "seasonal variations". The adjusted index numbers thus approximate the trend, cycle, and irregular components of the time series. The X-11 variant of the U.S. Census Method II is used to calculate the seasonally-adjusted index numbers; additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series January 1961 - December 1971" (Catalogue 72-206).

## Averages

The average weekly hours figure is obtained by dividing total weekly man-hours by the number of wage-earners who worked those hours. Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earner total includes part-time wage-earners and casuals working more than seven hours during one week. Annual statistics are calculated from the aggregate of the monthly data, with the exception of those shown as preliminary(p); the latter are based on monthly averages.

## Statistical Presentation

Each month, statistics for three months are prepared by the Monthly Employment, Payrolls and Labour Income Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 50%) and only highly aggregated figures are released in the Statistics Canada Daily and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current data and third estimates for the month prior to that. Both of these latter estimates are of higher quality than that of the first because of the higher rate of returns (typically, 65% and 75%, respectively). Consequently full details for both months are shown in this publication.

After completion of the third estimate, further revisions to the data are made to incorporate late returns and corrected information received from our respondents or to rectify mechanical errors. Larger corrections are calculated immediately and appear in the historical special tables and in column for the previous year in tables 2, 3 and 4 of this publication. The smaller corrections are completed in the final tabulations when all returns are retabulated to produce revised figures and annual averages; these data are contained in catalogue 72-201 and 72-202.

maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "rémunérations hebdomadaires moyennes" des ouvriers rémunérés à taux horaire.

## Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base. Le nombre courant de salariés est l'ensemble des salariés déclarés par les établissements dont la taille répond à notre critère pendant la période courante. Le nombre de salariés pour l'année de base est le nombre de salariés des établissements employant 20 salariés ou plus pendant n'importe quel mois de l'année 1961. L'indice de la rémunération est calculé de la même manière.

La désaisonnalisation des nombres-indices a pour effet d'éliminer des indices de l'emploi les fluctuations qui se produisent à intervalles réguliers et qui s'appellent variations saisonnières. Les nombres-indices désaisonnalisés représentent donc assez bien la tendance, le cycle et les composantes irrégulières de la série chronologique. La variante X-11 de la méthode II du recensement des Etats-Unis est utilisée pour calculer les nombres-indices désaisonnalisés; on peut trouver d'autres séries désaisonnalisées dans "Emploi, rémunérations et heures, séries désaisonnalisées janvier 1961-décembre 1971" (n° 72-206 au catalogue).

## Moyennes

On calcule les heures hebdomadaires moyennes en divisant le nombre total d'heures-hommes par le nombre d'ouvriers qui ont fait ces heures. On obtient les rémunérations horaires moyennes en divisant la rémunération hebdomadaire totale des ouvriers rémunérés à l'heure par le nombre total de leurs heures par semaine. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. À remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le total des ouvriers comprend les ouvriers à temps partiel et les occasionnels qui travaillent plus de sept heures par semaine. À l'exception des statistiques provisoires (p), qui sont fondées sur les moyennes mensuelles, les statistiques annuelles sont établies à partir de l'ensemble des données mensuelles.

## Présentation statistique

Chaque mois, la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail prépare des statistiques pour trois mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (environ 50%) et seuls des chiffres très généraux sont publiés dans Le Quotidien de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième estimations pour le mois qui précède celui-là. Ces deux dernières estimations sont de meilleure qualité que les premières en raison de la disponibilité d'un plus grand nombre de réponses (d'habitude 65% pour les deuxième estimations et 75% pour les troisième). Par conséquent, la présente publication contient tous les détails pour ces deux mois.

Une fois terminées les troisième estimations, on effectue d'autres rectifications à la lumière des déclarations des retardataires et des corrections reçues de nos enquêtés, ou par suite de la correction de certaines erreurs mécaniques. Les corrections les plus importantes sont effectuées immédiatement; elles paraissent dans les tableaux chronologiques et spéciaux ainsi que dans la colonne de l'année précédente aux tableaux 2, 3 et 4 de la présente publication. Les corrections de moindre importance sont effectuées dans les tableaux annuels quand toutes les réponses ont été totalisées de nouveau en vue de la production de chiffres et de moyennes annuelles rectifiés; ces données sont publiées dans les publications 72-201 et 72-202.

## SYMBOLS

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- — amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

## NOTE

In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- — nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

## NOTA

On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.

## COMMENTARY

### First Estimates(1) – June 1977 (Seasonally-adjusted)

The first estimates of the Canada industrial composite(2) index of employment (1961 = 100) showed a 0.1% decline from May to June. With the exception of mining (including milling), manufacturing and construction which increased, all industry divisions registered decreases. At the regional level, only British Columbia and the Atlantic region recorded gains.

Average weekly earnings rose 1.3% at the national industrial composite level in June. All industry divisions and all regions contributed to the overall advance.

### Preliminary Data – May 1977

#### Employment

Seasonally adjusted, preliminary data for May 1977 regressed by 0.1% at the Canadian industrial composite index of employment. Decreases were recorded in all industry divisions except for mining (including milling), manufacturing and finance, insurance and real estate which increased and for trade which showed no movement. Ontario and British Columbia were the only regions to post gains.

#### Earnings and Hours

Seasonally adjusted, average weekly earnings progressed by 0.6% at the national industrial composite level. Gains were registered in all industry divisions except forestry and in all regions except British Columbia.

Unadjusted, average weekly earnings rose 0.8% to \$248.31 at the Canadian industrial composite level in May. Average hourly earnings increased by one cent in mining (including milling) to \$7.98, by 10 cents in manufacturing to \$6.37 and by 14 cents in construction to \$9.77. Average weekly hours advanced in mining (including milling) and in construction but declined in manufacturing.

(1) See note on "Statistical Presentation" under "Concepts and Methods" at the back of this publication.

(2) Industrial composite is the sum of all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. All statistics are based on returns received from employers having 20 or more employees in any month of the year.

## OBSERVATIONS

### Premières estimations(1) – juin 1977 (chiffres désaisonnalisés)

Les premières estimations de l'emploi pour l'ensemble des industries(2) du Canada (1961 = 100) révèlent un recul de 0.1% de mai à juin. À l'exception des mines (y compris le broyage), des manufactures et de la construction où l'on a observé des augmentations, toutes les divisions de l'activité économique ont régressé. À l'échelle régionale, il n'y a que la Colombie-Britannique et la région de l'Atlantique qui ont connu des hausses.

En juin, les gains hebdomadaires moyens au niveau de l'ensemble des activités économiques du Canada se sont accrus de 1.3%. Toutes les divisions de l'activité économique et toutes les régions ont contribué à la hausse générale.

### Données provisoires – mai 1977

#### Emploi

Après désaisonnalisation, les données provisoires pour mai 1977 montrent une régression de 0.1% au niveau de l'emploi dans l'ensemble des industries du Canada. On a remarqué des baisses dans toutes les divisions de l'activité économique à l'exception des mines (y compris le broyage), des manufactures et des finances, assurances et immeuble qui ont augmenté et du commerce qui n'a subi aucun changement. L'Ontario et la Colombie-Britannique furent les seules régions à connaître des hausses.

#### Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, ont progressé de 0.6% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique, sauf le forestage et toutes les régions, sauf la Colombie-Britannique ont enregistré des hausses.

Les gains hebdomadaires moyens, non désaisonnalisés, se sont accrus de 0.8% pour s'établir à \$248.31 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens se sont haussés d'un cent dans les mines (y compris le broyage) (\$7.98), de 10 cents dans les manufactures (\$6.37) et de 14 cents dans la construction (\$9.77). Le nombre moyen d'heures hebdomadaires travaillées s'est élevé dans les mines (y compris le broyage) et dans la construction, mais s'est abaissé dans les manufactures.

(1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.

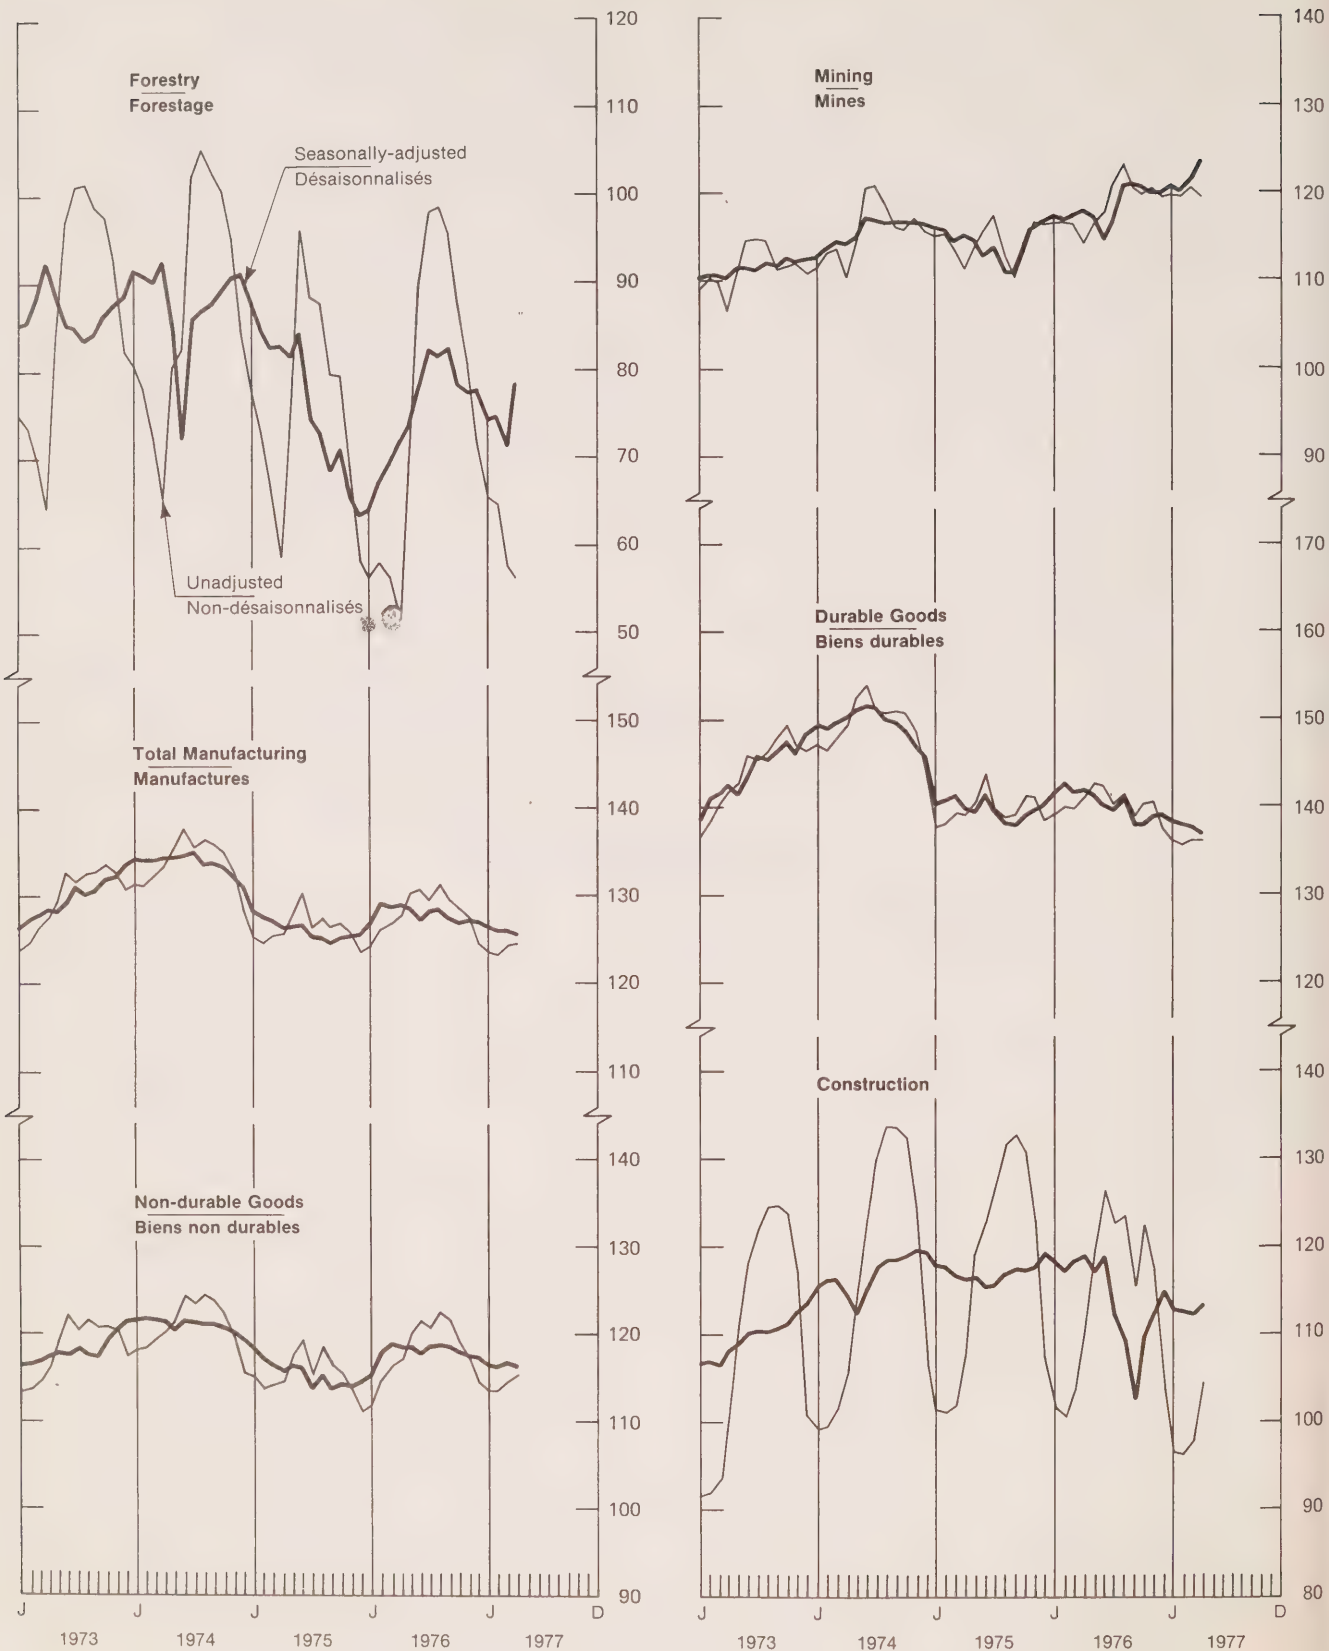

(2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés et l'administration publique et la défense. Toutes les statistiques sont fondées sur les déclarations envoyées par les employeurs comptant au moins 20 salariés au cours d'un mois quelconque de l'année.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

# **HISTORICAL DATA ON EMPLOYMENT, EARNINGS AND HOURS(1)** (based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

## **1957-1960**

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

## **1961-1970**

*Employment Indexes*, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, *Catalogue 72-002, October 1971*.

*Employment Indexes*, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

*Average Weekly Earnings*, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

*Average Weekly Earnings*, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners* 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

# **DONNÉES CHRONOLOGIQUES SUR L'EMPLOI, LES GAINS ET LA DURÉE DU TRAVAIL(1)** (fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

## **A. 1957-1960**

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967* Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

## **B. 1961-1970**

*Indices de l'emploi*, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, *n° 72-002 au catalogue, octobre 1971*.

*Indices de l'emploi*, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

*Gains hebdomadaires moyens*, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

*Gains hebdomadaires moyens*, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

*Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées)*, 1961-1967 for:

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

*Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.*

All other available monthly and annual data for 1961-1964 are published in:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.*

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

### C. 1971-1973

*Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.*

*Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.*

*Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.*

All other series are published in the monthly issues of *Catalogue 72-002 for 1971, 1972 and 1973.*

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n° 72-002 au catalogue, juin 1972.

*Heures hebdomadaires moyennes, rémunération horaire moyenne gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n° 72-002 au catalogue décembre 1971.*

« Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

*Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n° 72-504 au catalogue.*

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n°s 72-201 et 72-202 au catalogue 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n°s 72-201 et 72-202 au catalogue, 1968-1970.

### C. 1971-1973

*Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries Voir le n° 72-002 au catalogue, juillet 1974.*

*Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communication et autres services publics et l'ensemble des industries. Voir le n° 72-002 au catalogue septembre 1974.*

*Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires—moyennes et rémunération horaire moyenne des ouvriers (heures—déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n° 72-002 au catalogue, septembre 1974.*

Toutes les autres séries sont publiées dans les bulletins mensuels du n° 72-002 au catalogue pour les années 1971, 1972 et 1973.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

## CONCEPTS AND METHODS

Each month the Monthly Employment, Payrolls and Labour Income Section of the Labour Division, through a mail survey, collects information on employment, earnings and hours which are tabulated to present the data in this report. Data which, prior to March 1971, were published separately in "Employment and Average Weekly Wages and Salaries" (Catalogue 72-002) and in "Man-Hours and Hourly Earnings" (Catalogue 72-003) have been combined in this report. The following notes explain the concepts and methods used in the survey.

### Reporting Unit

The reporting unit is usually the establishment, that is, the smallest industrial unit which is a separate operating entity capable of reporting all elements of basic industrial statistics including information on inputs and outputs needed to calculate "value added" or "gross mark-up" or "gross profit" as well as data on employment and payrolls. For purposes of detailed geographic statistics, the Section often requests that the reporting unit be a sub-establishment unit which, although not capable of reporting all basic statistics, can report employment and payroll data for that particular location.

Generally, the survey covers larger companies only, that is, companies having 20 or more employees in any month of the year. However, all the establishments of a multi-establishment company are included if the company had 20 or more employees in total in any month of the year even though any single establishment may have had only a few employees.

### Reference Period

Conceptually, the figures refer to the last seven days in the specified months. In practice, few establishments keep payroll records covering precisely this period and establishments are therefore permitted to report for their last pay period or pay periods in each month.

When the reported pay period is longer than one week, the payroll data are reduced to one week's proportion of the totals. The numerators of the fractions used in calculating these weekly equivalents are 5, 6 or 7, depending on the number of working days per week in which the establishment operated in the pay period. The denominators of the fractions are the number of working days in the relevant pay periods. For employees paid at annual or monthly rates, whose earnings are not affected by the number of working days in the month, fixed proportions are used to reduce the earnings to a weekly basis, without regard to the length of the calendar month.

When a holiday, layoff or industrial dispute occurs in an establishment that reports a pay period that is different from the last seven days of the month, an adjustment is made to the data, if the holiday, layoff or dispute affects the two periods differently, so that the data accurately reflects the actual situation during the reference period.

### Coverage

All industries are covered by the survey, with the exceptions of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence. Because of the limitation of the survey to larger firms, there is somewhat uneven coverage of employment by industry as well as by province and urban area. The percentage of total employment covered depends on the propor-

## CONCEPTS ET MÉTHODES

Chaque mois, la Section des Statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail de la Division du travail recueille, par voie d'enquête postale, des données sur l'emploi, les gains et les heures de travail, données qui sont ensuite publiées ici sous forme de tableaux. Les données qui, avant mars 1971, étaient publiées séparément dans "Employment and Average Weekly Wages and Salaries" (n° 72-002 au catalogue) et dans "Man-Hours and Hourly Earnings" (n° 72-003 au catalogue) sont regroupées ici. Les notes qui suivent expliquent les concepts et la méthodologie de l'enquête.

### Unité de déclaration

L'unité de déclaration est ordinairement l'établissement, c'est-à-dire la plus petite unité constituant un ensemble d'exploitation séparé en mesure de déclarer tous les éléments de base relevant de la statistique des activités économiques, y compris les données sur les entrées et les sorties qui sont nécessaires pour calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut" ainsi que des données sur l'emploi et les rémunérations. Pour obtenir des statistiques géographiques détaillées, la Section demande souvent que l'unité de déclaration se situe à un niveau qui est en deça de celui de l'établissement, mais qui permet quand même d'obtenir des données sur l'emploi et les rémunérations à ce niveau, même si, par définition, ce niveau ne peut fournir toutes les statistiques de base.

En règle générale, l'enquête vise seulement les grandes entreprises, c'est-à-dire les entreprises employant 20 salariés ou plus au cours de n'importe quel mois de l'année. Toutefois, tous les établissements d'une entreprise à établissements multiples sont pris en compte si l'entreprise emploie 20 salariés ou plus, au total, au cours de n'importe quel mois de l'année, même si un de ces établissements peut n'avoir eu que quelques salariés.

### Période de référence

En théorie, l'enquête vise les chiffres des sept derniers jours des mois de référence. Vu qu'en pratique peu d'établissements tiennent des registres de paye pour cette période précise, on permet aux établissements de faire porter leurs chiffres sur la (ou les) dernière(s) période(s) de paye de chaque mois.

Si la période de paye visée dépasse une semaine, les chiffres sont réduits en conséquence. Les numérateurs des fractions utilisées pour calculer l'équivalent hebdomadaire sont 5, 6 ou 7, suivant le nombre de jours ouvrables par semaine où l'établissement a été en exploitation pendant la période de paye. Les dénominateurs des fractions sont le nombre de jours ouvrables des diverses périodes de paye. Dans le cas du personnel qui est rémunéré sur une base annuelle ou mensuelle et dont les gains ne sont pas touchés par le nombre de jours ouvrables au cours du mois, on utilise des proportions fixes pour ramener les gains sur une base hebdomadaire, sans tenir compte de la longueur du mois civil.

En cas de jour férié, de congédiement ou de conflit du travail dans un établissement dont la période de paye ne correspond pas aux sept derniers jours du mois, les données sont rectifiées lorsque l'effet du jour férié, du congédiement ou du conflit n'est pas le même sur les deux périodes, de manière que les données soient le reflet fidèle de la situation pendant la période de référence.

### Champ de l'enquête

Toutes les branches d'activité économique sont prises en compte dans l'enquête, à l'exception de l'agriculture, de la pêche et du piégeage, de l'éducation et des services connexes, des services d'hygiène et de bien-être, des organismes religieux, des ménages et de l'administration publique et de la défense. Parce que l'enquête se limite aux grandes entreprises, le champ d'observation de l'emploi par branche d'activité, par province et par région urbaine manque quelque peu d'uniformité. Le

tion of larger to smaller establishments. This proportion varies considerably among industries. The following table shows annual employment as reported in the survey as a percentage of the estimated total employment, the latter being estimated by adding together data from the employment and payrolls survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of total employment are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

pourcentage de l'emploi total qui est observé dépend du rapport des grands établissements aux petits établissements. Cette proportion varie considérablement d'une branche à l'autre. Le tableau suivant indique le chiffre, annuel de l'emploi, tel qu'il ressort de l'enquête, en pourcentage du chiffre estimatif de l'emploi total, ce dernier étant la somme des résultats de l'enquête sur l'emploi et la rémunération et des résultats d'une enquête par échantillon auprès des petites entreprises ainsi que d'autres enquêtes supplémentaires. Des estimations du nombre total d'employés sont publiées sous le titre "Estimations du nombre d'employés par province et par industrie" (n° 72-008 au catalogue).

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes recreational, business, personal and miscellaneous services only; data has not been published previously. - Comprend seulement les services récréatifs, commerciaux, personnels et divers; ces données n'ont pas été publiées auparavant.
- (3) These percentages are small because non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont petits parce que les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services and public administration and defence; data has not been published previously. - Ne comprend pas les services non commerciaux et l'administration publique et de la défense; ces données n'ont pas été publiées auparavant.
- (5) These percentages are smaller because both non-commercial services and public administration and defence are included in total estimated employment but are not part of the larger-firm employment survey. - Ces pourcentages sont plus petits parce que les services non commerciaux de même que l'administration publique et la défense nationale sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (6) Data for forestry and construction by province are not available for periods more recent than 1970. Les données pour le forstage et la construction ne sont pas disponibles par province après l'année 1970.

### Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas. The definitions used for other urban areas are based on a labour market concept; the areas usually include the surrounding territory as well as the urban centre. A list showing the territory included in each tabulated urban area is available from the Monthly Employment,

### Classification géographique

Les unités de déclaration sont affectées à une province, à un comté (selon la définition établie par le recensement de la population) et, s'il y a lieu, à une région urbaine. Les données de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick sont agrégées dans certains tableaux présentant des statistiques pour la région de l'Atlantique. De la même manière, les données du Manitoba, de la Saskatchewan et de l'Alberta sont additionnées pour former le total de la région des Prairies. On a retenu la définition de "région métropolitaine" établie pour le recensement de la population dans le cas des dix-neuf régions urbaines. Les définitions employées pour les autres régions urbaines sont fondées sur le concept du marché du travail; les régions englobent ordinairement le territoire avoisinant avec le centre urbain. On peut obtenir

Payrolls and Labour Income Section. The reporting units not located in a tabulated urban area are included in county, provincial and regional totals.

## Industrial Classification

All establishments are assigned to an industrial class on the basis of their principal activity. If an establishment is engaged in a number of different industrial activities, its principal activity is determined by the largest net value added by these activities, or where this is not possible, by the gross revenue obtained from the different activities. When an establishment has very mixed activities, it is not necessarily shifted from industry to industry each time its principal activity changes.

Statistics from the survey are based on the 1960 Standard Industrial Classification. A description of the various industries and groups of industries may be found in the "Standard Industrial Classification Manual", Catalogue 12-501 (1960). The "S.I.C. code" columns in the main tables refer to this manual. The tables contain a few groupings not found in the Standard Industrial Classification. These include:

*Industrial composite* (031-899) - The sum of the industries included in the survey. (see Coverage)

*Durable goods manufacturing* (durable) - The sum of wood products (S.I.C. 250-259), furniture and fixtures (S.I.C. 260-269), primary metal industries (S.I.C. 290-298), metal fabricating industries (S.I.C. 300-309), machinery (except electrical) (S.I.C. 310-318), transportation equipment (S.I.C. 320-329), electrical products (S.I.C. 330-339), and non-metallic mineral products (S.I.C. 340-359).

*Non-durable goods manufacturing* (non-dur) - The sum of food and beverages (S.I.C. 100-147), tobacco processing and products (S.I.C. 150-153), rubber products (S.I.C. 160-169), leather products (S.I.C. 170-179), textile products (S.I.C. 180-229), knitting mills (S.I.C. 230-239), clothing (S.I.C. 240-249), paper and allied industries (S.I.C. 270-274), printing, publishing and allied industries (S.I.C. 280-289), petroleum and coal products (S.I.C. 360-369), chemicals and chemical products (S.I.C. 370-379), and miscellaneous manufacturing industries (S.I.C. 380-399).

*Building* (404,421) - The sum of general contractors (S.I.C. 404) and special trade contractors (S.I.C. 421).

*Engineering* (406-409) - The sum of highway, bridge and street construction (S.I.C. 406) and other construction (S.I.C. 409).

In addition, the synthetic textile industry (201) is subdivided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).

## Employment

Employment data represent all employees on the payrolls of reporting units in the reference period. The employee concept excludes working owners or partners in unincorporated businesses, non-working directors, the self-employed, unpaid family workers, persons doing non-remunerative volunteer work, pensioners, home workers,

sur demande une liste indiquant le territoire compris dans chaque région urbaine en s'adressant à la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail. Les unités de déclaration situées ailleurs que dans une région urbaine retenue sont comprises dans les chiffres du comté, de la province et de la région.

## Classification par activité économique

Tous les établissements appartiennent à une branche d'activité économique, qui est déterminée en fonction de leur activité principale. Si un établissement a plusieurs activités économiques, son activité principale est déterminée par la plus grande valeur nette ajoutée de ces activités, ou si cela n'est pas possible, par les recettes brutes au titre des différentes activités. Si un établissement exerce des activités très diverses, on ne le transfère pas nécessairement d'une branche à l'autre chaque fois que son activité principale change.

Les statistiques tirées de l'enquête sont fondées sur la Classification type des industries de 1960. On peut trouver une description des diverses activités économiques et groupes d'activités économiques dans le "Manuel de la classification type des industries", n° 12-501 au catalogue (1960). Les colonnes "code de la C.T.I." des principaux tableaux renvoient à ce manuel. Les tableaux renferment quelques groupements qui ne se trouvent pas dans la Classification type des industries. Ce sont:

*Ensemble des industries* (031-899) - l'ensemble des activités économiques visées par l'enquête. (voir Champ de l'enquête)

*Manufactures, biens durables* (durable) - l'ensemble de l'industrie des produits du bois (C.T.I. 250-259), de l'industrie des meubles et accessoires d'ameublement (C.T.I. 260-269), de l'industrie des métaux (formes primaires) (C.T.I. 290-298), de l'industrie des produits métalliques (C.T.I. 300-309), de l'industrie de la machinerie (sauf le matériel électrique) (C.T.I. 310-318), de l'industrie du matériel de transport (C.T.I. 320-329), de l'industrie des appareils et du matériel électriques (C.T.I. 330-339), et de l'industrie des produits minéraux non métalliques (C.T.I. 340-359).

*Manufactures, biens non durables* (non dur.) - L'ensemble de l'industrie des aliments et boissons (C.T.I. 100-147), de l'industrie du traitement et des produits du tabac (C.T.I. 150-153), de l'industrie des produits du caoutchouc (C.T.I. 160-169), de l'industrie des produits du cuir (C.T.I. 170-179), de l'industrie des produits du textile (C.T.I. 180-229), de l'industrie de la bonneterie (C.T.I. 230-239), de l'industrie du vêtement (C.T.I. 240-249), de l'industrie du papier et des produits connexes (C.T.I. 270-274) de l'imprimerie, de l'édition et des industries connexes (C.T.I. 280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (C.T.I. 360-369), de l'industrie chimique et des produits connexes (C.T.I. 370-379) et des industries manufacturières diverses (C.T.I. 380-399).

*Bâtiment* (404, 421) - L'ensemble des entrepreneurs généraux (C.T.I. 404) et des entrepreneurs spécialisés (C.T.I. 421).

*Genie civil* (C.T.I. 406-409) - L'ensemble de la construction de routes, ponts et rues (C.T.I. 406) et des autres constructions (C.T.I. 409).

En outre, l'industrie des textiles synthétiques (201) est subdivisée en fils et tissus (2011) et en fils de filaments et fibres discontinues (2012).

## Emploi

Les données sur l'emploi représentent tous les salariés inscrits aux registres de paye des unités de déclaration au cours de la période de référence. Le concept des salariés exclut les propriétaires actifs ou partenaires d'entreprises non constituées en corporation, les membres des conseils d'administration qui ne travaillent pas dans l'entreprise, les travailleurs

and persons providing services to an establishment on the basis of a contract for services. Counted as employed, therefore, are all wage-earners and salaried employees who are paid for their services or are on paid absence during the reference period, except for casual employees working less than seven hours in the pay period. *Regular part-time* employees are treated as employed regardless of the number of hours worked during the pay period.

For example, an employee working for a part of the reference period and unemployed or on strike for the rest, is counted as employed. Employees not receiving pay for the entire reference period because of strike or as a consequence of a strike, or those persons on leave without pay, are not included among the employed.

### Wage-earners

Wage-earners are defined by occupation rather than by the method of payment. They are those employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. Wage-earners may be paid a fixed monthly amount or on the basis of hours worked. The survey covers all wage-earners regardless of the method of payment and average weekly wages are computed for all. However, derivations of average weekly hours and average hourly earnings are based only upon data for wage-earners for whom hours data are available.

### Salaried Employees

Salaried employees constitute executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

### Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained this combined data entitled "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in

autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les pensionnés, les travailleurs à domicile et les personnes fournissant des services à forfait ou sous contrat. Sont donc considérés comme salariés tous les ouvriers et tous les employés qui sont rémunérés pour leurs services ou qui sont en congé payé pendant la période de référence, à l'exception des occasionnels ayant travaillé moins de sept heures pendant la période de paye. Les *salariés réguliers à temps partiel* sont comptés parmi les salariés quel que soit le nombre d'heures qu'ils travaillent pendant la période de paye.

Par exemple, une personne travaillant une partie de la période de référence et en chômage ou en grève le reste de la période, est comptée comme occupée. Les salariés qui ne sont pas rémunérés pour toute la période de référence à cause d'une grève ou des conséquences d'une grève, ou les personnes en congé sans paye ne figurent pas parmi les personnes occupées.

### Ouvriers

L'ouvrier est défini par la nature du travail plutôt que par le mode de rémunération. Les ouvriers sont les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Les ouvriers peuvent être rémunérés sur une base mensuelle fixe ou suivant le nombre d'heures travaillées. L'enquête couvre tous les ouvriers quel que soit leur mode de rémunération et les gains hebdomadaires moyens sont calculés pour tous. Toutefois, les heures hebdomadaires moyennes et les rémunérations horaires moyennes sont calculées uniquement d'après les données relatives aux ouvriers dont on peut connaître le nombre d'heures de travail.

### Employés

Les employés comprennent les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

### Rémunération

Les rémunérations des ouvriers et des employés représentent les gains bruts de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les salaires, la rémunération au taux ordinaire, la rémunération du travail aux pièces et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de l'enquête. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les cotisations de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents de travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur de la pension, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "rémunérations" désigne l'ensemble des gains des ouvriers et des employés. Les publications antérieures à mars 1971 renfermaient des données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "rémunérations hebdomadaires moyennes" des salariés pris en compte ici. Ce système permet

present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners was available.

## Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly-average of the total base employment (or payroll). The current employment consists of all employment reported by establishments that meet our size criteria in the current period. Base year employment consists of the employment of establishments that had 20 or more employees in any month of 1961. The payroll index is calculated in a similar fashion.

Seasonally-adjusted index numbers remove from the employment indexes those regularly recurring fluctuations known as "seasonal variations". The adjusted index numbers thus approximate the trend, cycle, and irregular components of the time series. The X-11 variant of the U.S. Census Method II is used to calculate the seasonally-adjusted index numbers; additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series January 1961 - December 1971" (Catalogue 72-206).

## Averages

The average weekly hours figure is obtained by dividing total weekly man-hours by the number of wage-earners who worked those hours. Average hourly earnings are obtained by dividing total weekly earnings of hourly-rated wage-earners by their total weekly hours. Both these averages apply only to the subset of wage-earners for whom monthly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earner total includes part-time wage-earners and casuals working more than seven hours during one week. Annual statistics are calculated from the aggregate of the monthly data, with the exception of those shown as preliminary (p); the latter are based on monthly averages.

## Statistical Presentation

Each month, statistics for three months are prepared by the Monthly Employment, Payrolls and Labour Income Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 50%) and only preliminary aggregated figures are released in the Statistics Canada Daily Bulletin. The First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current data and third estimates for the month prior to that. Two of these latter estimates are of higher quality than that of the first estimate because of the higher rate of returns (typically, 65% and 75%, respectively). Consequently full details for both months are shown in this publication.

After completion of the third estimate, further revisions to the data are made to incorporate late returns and corrected information received from our respondents or to rectify mechanical errors. Larger corrections are calculated immediately and appear in the historical special tables and in column for the previous year in tables 2, 3 and 4 of this publication. The smaller corrections are completed in the final tabulations when all returns are retabulated to produce revised monthly and annual averages; these data are contained in catalogue 72-201 and 72-202.

maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "rémunérations hebdomadaires moyennes" des ouvriers rémunérés à taux horaire.

## Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base. Le nombre courant de salariés est l'ensemble des salariés déclarés par les établissements dont la taille répond à notre critère pendant la période courante. Le nombre de salariés pour l'année de base est le nombre de salariés des établissements employant 20 salariés ou plus pendant n'importe quel mois de l'année 1961. L'indice de la rémunération est calculé de la même manière.

La désaisonnalisation des nombres-indices a pour effet d'éliminer des indices de l'emploi les fluctuations qui se produisent à intervalles réguliers et qui s'appellent variations saisonnières. Les nombres-indices désaisonnalisés représentent donc assez bien la tendance, le cycle et les composantes irrégulières de la série chronologique. La variante X-11 de la méthode II du recensement des Etats-Unis est utilisée pour calculer les nombres-indices désaisonnalisés; on peut trouver d'autres séries désaisonnalisées dans "Emploi, rémunérations et heures, séries désaisonnalisées janvier 1961-décembre 1971" (n° 72-206 au catalogue).

## Moyennes

On calcule les heures hebdomadaires moyennes en divisant le nombre total d'heures-hommes par le nombre d'ouvriers qui ont fait ces heures. On obtient les rémunérations horaires moyennes en divisant la rémunération hebdomadaire totale des ouvriers rémunérés à l'heure par le nombre total de leurs heures par semaine. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. À remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le total des ouvriers comprend les ouvriers à temps partiel et les occasionnels qui travaillent plus de sept heures par semaine. À l'exception des statistiques provisoires (p), qui sont fondées sur les moyennes mensuelles, les statistiques annuelles sont établies à partir de l'ensemble des données mensuelles.

## Présentation statistique

Chaque mois, la Section des statistiques mensuelles sur l'emploi, la rémunération et le revenu du travail prépare des statistiques pour trois mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (environ 50%) et seuls des chiffres très généraux sont publiés dans Le Quotidien de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième estimations pour le mois qui précède celui-là. Ces deux dernières estimations sont de meilleure qualité que les premières en raison de la disponibilité d'un plus grand nombre de réponses (d'habitude 65% pour les deuxième estimations et 75% pour les troisième). Par conséquent, la présente publication contient tous les détails pour ces deux mois.

Une fois terminées les troisième estimations, on effectue d'autres rectifications à la lumière des déclarations des retardataires et des corrections reçues de nos enquêtés, ou par suite de la correction de certaines erreurs mécaniques. Les corrections les plus importantes sont effectuées immédiatement; elles paraissent dans les tableaux chronologiques et spéciaux ainsi que dans la colonne de l'année précédente aux tableaux 2, 3 et 4 de la présente publication. Les corrections de moindre importance sont effectuées dans les tableaux annuels quand toutes les réponses ont été totalisées de nouveau en vue de la production de chiffres et de moyennes annuelles rectifiés; ces données sont publiées dans les publications 72-201 et 72-202.
